Key Commitments

Licence number: CR102160

Service name	**Radio Newquay**
Licence area	**Newquay and the surrounding area (as shown in the licensed coverage area map)**
Frequency	**106.1 MHz**

Description of character of service

Radio Newquay provides an inclusive, local service to educate, inform and positively promote Newquay in Cornwall and the surrounding area. It actively engages community groups and organisations, including the surfing community, and it promotes community cohesion, with local people playing an active and prominent part in the output.

The service broadcasts:

- Music. The main types of music broadcast over the course of each week are: new and recent tracks alongside popular music from the past five decades. Specialist music also features.

- Speech. The main types of speech output broadcast over the course of each week are: community news and information, 'what's on', surfing news and forecasts, weather, interviews and short form content featuring community voices.

- The service provides original output[1] for a minimum of eight hours per day.

- The service provides locally-produced output[2] for a minimum of six hours per day.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,

- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and

- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[August 2018]

[1] Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.
[2] Locally-produced output is any output made and broadcast from within the service's licensed coverage area. It may include all types of local production.
