**Ofcom Consultation
Award of Available Spectrum 1452-1492 MHz**

UKISC is the trade association of the British space industry. Founded in 1975 UKISC represents over 75 per cent of the UK space industry by both turnover and people employed, with member companies engaged in all aspects of space activity.

UKISC is pleased to respond to the above Ofcom consultation by adding our support to the response submitted by Intellect, one of our sponsoring Trade Associations. The Intellect response was prepared in close consultation with UKISC.

If you have any questions please do not hesitate to contact me.

I am pleased to enclose as e-mail attachment with this endorsement a completed cover sheet and a copy of the Intellect position for ease of reference.

Yours sincerely,

Pat Norris
Chairman UKISC Satellite Telecommunications Sub Committee
