

Email response received 7 August 2005 from Mr A Weddell GM1JFF:

Q1 / I agree to a lighter process but have concerns with security and some may not have access to a computer

Q2/ I don't agree with a lifetime license as people move and it's easy to omit to notify.

Q3/ I do not agree with a free license issue. It is wide open to abuse.

Q4/ I do not agree this will discriminate against those without a computer.

Q5/ I agree

Q6/ I strongly disagree, this would result in chaos.

Q7/ I agree with this proposal and think that 5 years would be a sensible period.

Q8/ From an amateurs point of view I do not find the current system a burden, with direct debit all I have to do is open a notification letter.

Q9/ I agree with this proposal, a fair fee for services rendered.
