

Dear Neil Stock

I have been sent a news letter, a form to send to you, or email you, also a stop Press. Which states :VERY VERY IMPORTANT:
Regarding paragraph 39.

I have supported Cornwall having another Radio Station to go along with the two that we have , so that it would cover what the others do not, as Pirate Radio is mostly pop. radio Cornwall is very local and mostly chat, and what I think that we need is something in-between,

I do not see and harm in the Radio to serve the South West region, it sounds to me that some one has a hidden agenda, I have lived in Cornwall most of my life served on Council for 26 years retiring last year and I am sick to death of hearing Cornwall for the Cornish our population is less then in Plymouth.

So I say that the new Radio Station should be for the South west region it makes since.

Hope that this is of some help

Marcus
