Proposal to remove the 'free to air only' requirement

Consultation: Pay TV channels on multiplexes B, C and D: Proposal to remove the 'free to air only' requirement

I would like to object to any proposal which would reduce the number of 'free to air' broadcasts on digital terrestrial television. For those who wish to pay (beyond the Television Licence) for programming, Sky offers a suitable alternative.

I would also object to any proposal that would extend Sky's presence and influence in the broadcast media. This is already unacceptable.

I find it a matter of regret that you should request submissions in Microsoft Word format. I do not believe that a body such as Ofcom should seek to promote an organisation such as Microsoft.
