

I travel the world and it is so clear to me that we are so very very lucky in the UK to have the PSB services we have. It is also clear that is led by the BBC as a standard setter and 'anchor point' for the whole industry.

PSB (and the BBC) should be maintained, nurtured, funded and made available on ALL current and future platforms including HD. To do anything else will start an inevitable slide into the broadcasting drivel I see in almost all other countries.
