

**Email received 3 April 2005 from Mr Charles B. Husick:**

*I am in favor of the proposal to make ship's radio station licenses good for the life of the vessel and to issue them without charge. I am in agreement with questions 1 thru 5.*

*I intend to follow the lead evident in this proposal by recommending similar action by the United States regulator, the Federal Communications Commission.*

*Sincerely,*

*Charles B. Husick*
