

## **Comments on Ofcom's Proposal:**

1. The new regulations mention specifically at Annex 5 - 4 (3) "the equipment does not cause or contribute to undue interference to any wireless
2. telegraphy". We would request clarification as to the definition of "undue".
  2. Does the phrase "any wireless telegraphy" cover radiodetermination systems?
3. In Annex 6 the "Commission Decision" at (5) "must respect the rights to protection against harmful interference". There are differences in the text between the new UK Regulations and the EEC Decision - i.e. between "undue" and "harmful".
