Form S8 - Annex A

A1. Confirmation of Status:

Oftel generally only Allocates Telephone Numbers to providers of Public Electronic Communications Networks.

Oftel may also Allocate numbers, where number resource implications do not preclude allocation, to providers of a Public Electronic Communications Service. Oftel would also normally expect to see that the provider has arrangements in place for its service to be carried over a network, and, where appropriate, would usually expect the provider to have taken reasonable steps to seek a sub-allocation of Telephone Numbers of the type applied for prior to making the application.

Providers of Public Electronic Communications Networks

It is not Oftel's intention for a Communications Provider to be assessed more than once to determine whether or not it is a provider of a Public Electronic Communications Network.

Therefore, please now complete question A4. If you have answered 'yes' to question A4(a), you do not need to answer questions A1 (a) and (b) below.

If you have not registered i.e. you have answered no to question A4(a), Oftel needs certain information from you in order to determine whether or not you are a provider of a Public Electronic Communications Network.

Please provide details of:

a) the Electronic Communications Network on which the Telephone Numbers applied for are intended to be Adopted;

(a diagram may be useful to assist Oftel in assessing your eligibility for Telephone Numbers)

b) the Electronic Communications Service which you are intending to provide over that network.

Providers of Public Electronic Communications Services

In order to determine whether or not you are a provider of a Public Electronic Communications Service, Oftel needs certain information from you. Please provide details of:

c) the Electronic Communications Service which you are intending to provide with the Telephone Numbers applied for. Please also provide details of the network on which the numbers you are applying for will be Adopted.

<p>A2. <u>Applications from providers of Public Electronic Communications Services</u></p> <p>If you are applying for Telephone Numbers as a provider of Public Electronic Communications Services, where appropriate Oftel would usually expect your company to have already taken reasonable steps to obtain a sub-allocation of Telephone Numbers of the type you are applying for from a provider of a Public Electronic Communications Network.</p> <p>a) Have you taken steps to obtain a sub-allocation of Telephone Numbers of the type for which you are applying? If not, would you please provide a justification for that; and</p> <p>b) If you have taken steps, would you provide a brief description of the steps you have taken, and state why did you not obtain a sub-allocation?</p>	
<p>A3. <u>Interconnection arrangements</u></p> <p>Describe your Interconnection arrangements (or those of the provider of a Public Electronic Communications Network on whose network the Telephone Numbers applied for would be Adopted), if any, with other Communications Providers – a simple network diagram may be useful.</p>	
<p>A4. <u>Register of providers of Public Electronic Communication Networks</u></p> <p>Oftel maintains a voluntary register of providers of Public Electronic Communications Networks.</p> <p>a) Is your company listed on this register?</p> <p>b) If so, under which name is your company registered?</p> <p>c) If different from b), what is the 'trading name' under which your company will sub-allocate the Telephone Numbers applied for in this application?</p>
