

Annex B

The National Telephone Numbering Plan

Published by the Director General of Telecommunications

9 July 2003

Contents	Page
Definitions and Interpretation	23
Introduction	32
Part A: Telephone Numbers Available for Adoption	33
A1 Public Telephone Network Numbers	
A2 Telex Service Numbers	
A3 Network Codes	
A4 Administrative Codes	
Part B: Restrictions on the Adoption of Telephone Numbers	35
B1 General Restrictions on Telephone Numbers	
B2 General Restrictions on Telephone Numbers in Part A1	
B3 Specific Restrictions on Telephone Numbers	
Appendix A: Geographic Numbering	37
- Geographic Area Codes and applicable geographic area	
Appendix B: Telex Service Numbers	44
- initial digits of Subscriber Number and applicable designation	

Definitions and Interpretation

1. For the purpose of interpreting these conditions the following definitions shall apply:

'Access Code' means a short Non-Geographic Number, usually beginning with '1', that allows End-Users to access a wide range of services. There are three types of Access Code:

- (i) Type A Access Codes are available for use by all providers of a Public Telephone Network and are used in such a way as to enable End-Users to access designated services across all Public Telephone Networks;
- (ii) Type B Access Codes are Allocated individually by the Director and are Adopted in such a way as to either (i) enable End-Users to access services provided by their Communications Provider or (ii) enable End-Users to access services provided by other Communications Providers (eg, Indirect Access and Directory Enquiry Facilities); and
- (iii) Type C Access Codes are available for use for service provision within a Communications Provider's own Electronic Communications Network.

The use of Type A and Type C Access Codes is restricted through the Numbering Condition;

'Administrative Code' means a Telephone Number that is Adopted or otherwise used for administrative purposes only;

'Apparatus' includes any equipment, machinery or device and any wire or cable and the casing or coating for any wire or cable;

'Approved Apparatus' means, in relation to any Network, Apparatus which meets the appropriate essential requirements of regulation 4 of the Radio Equipment and Telecommunications Terminal Equipment Regulations 2000;

'Broadband Services' mean those switched broadband services allowing a considerable amount of information to be conveyed (eg, television pictures);

'C7' refers to a standard for common channel signalling in Electronic Communications Networks (also known as 'SS7');

'Called Party' means the person being contacted by means of a telephone call;

'Calling Line Identification' means a facility that enables identification of the number from which a call is being made or to which a return call could be made;

'Carrier Pre-Selection' means a facility which allows a Subscriber to whom a Publicly Available Telephone Service is provided by means of a Public Telephone Network to select which Pre-selected Provider of such Services provided wholly or partly by means of that Network is the Pre-Selected Provider he wishes to use to carry his calls by designating in advance the selection that is to apply on every occasion when there has been no selection of Provider by use of a Telephone Number;

'Carrier Pre-Selection Code' means a non-diallable four (4) digit Telephone Number commencing with the digit eight (8) (ie, 8XXX), that is Adopted or otherwise used in connection with the provision of Carrier Pre-Selection;

'Communications Provider Identification Code' means a Telephone Number Allocated to Communications Providers that is Adopted or otherwise used for administrative purposes to identify other Communications Providers;

'Conservation Area' means a geographic area that has a realistic expectation of number exhaustion within the foreseeable future. Type A Conservation Areas are those which Oftel believes are within two years of having less than ten spare 10,000 number blocks available. Type B Conservation Areas are those which Oftel believes are likely to become Type A Conservation Areas within ten years. Conservation Area status, where applicable, is indicated in Appendix B of the Plan;"

'Corporate Number' means a Telephone Number Allocated to a Communications Provider where the number is to be assigned by that Communications Provider to a specific Customer and in this definition 'Customer' shall only refer to a customer which is a body corporate. The cost of a call to a Corporate Number is paid for through the telephone bill of the Subscriber and charged at Special Service rates;

'Data Network Identification Codes' means a four (4) digit Telephone Number that is followed by a (ten- (10) digit) number to form the End-User's address on X25 Data Networks;

'Director' means the Director General of Telecommunications as appointed under Section 1 of the Telecommunications Act 1984;

'Directory' means a printed document containing Directory Information on Subscribers of Publicly Available Telephone Services in the United Kingdom which is made available to members of the public;

'Directory Enquiry Facility' means Directory Information provided by means of a Public Telephone Network;

'Directory Information' means, in the case of a Directory, the name and address of the Subscriber and the Telephone Number assigned to the Subscriber for their use of Publicly Available Telephone Services and, in the case of a Directory Enquiry Facility, shall be either such a Telephone Number of the Subscriber or information that such a Telephone Number of the Subscriber may not be supplied;

'Dominant Provider' has the same meaning as in any SMP Condition in force concerning Carrier Pre-Selection that is imposed on a person by the Director under Regulation 46 of the Regulations;

'Emergency Organisation' means in respect of any locality:

- (a) the relevant public police, fire, ambulance and coastguard services for that locality; and
- (b) any other organisation, as directed from time to time by the Director as providing a vital service relating to the safety of life in emergencies;

'Freephone Number' means a number that is reached free of charge to the Customer except where a charge is notified to the End-User at the start of the call;

'Functional Specification' means the document with that title referred to in General Condition 18 of the General Conditions of Entitlement (Number Portability);

'General Conditions of Entitlement' means those conditions contained in the Schedule to the Regulations;

'Geographic Area Code' means a Telephone Number identifying a particular geographic area;

'Geographic Number' means a Telephone Number, from a range of numbers in Part A of this document, where part of its digit structure contains a Geographic Area Code, consistent with Appendix A of this document, that is Adopted or otherwise used for routing calls to the physical location of the Network Termination Point of the Subscriber to whom the Telephone Number has been assigned, or where the Network Termination Point does not relate to the Geographic Area Code but where the tariffing remains consistent with that Geographic Area Code;

'Geographic Number Portability Code' means a number portability code used in conjunction with Geographic Numbers;

'Inbound Routing Code' means a Telephone Number Adopted or otherwise used to identify Electronic Communication Services, carriers and End-Users;

'Indirect Access' means a facility which allows a Subscriber to whom a Publicly Available Telephone Service is provided by means of a Public Telephone Network to select which such Service provided wholly or partly by means of that Network is the service he wishes to use by the use of a Telephone Number on each separate occasion on which a selection is made;

'Indirect Access Code' means a type of Access Code used to provide Indirect Access;

'Indirect Access Provider' means a provider of Indirect Access services;

'International Mobile Station Identity' means a Telephone Number that is Adopted or otherwise used to identify a terminal. These codes are allocated to identify terminals in accordance with International Telecommunication Union (ITU)-T Recommendation E.212;

'Integrated Services Digital Network' means a Network based on the existing digital Public Telephone Network which provides digital links to Customers and end to end digital connectivity between them;

'International Signalling Point Code' means a Signalling Point Code that constitutes an independent address for international purposes, in accordance with ITU-T Recommendation Q.708;

‘Local Call’ means a call made from one Geographic Number to another Geographic Number within a limited geographic area;

‘Local Dialling’ means the ability for an End-User to contact a Called Party within the same Geographic Area Code area by dialling only the Local Number;

‘Local Number’ means a Geographic Number (excluding the Geographic Area Code);

‘Local Rate’ means an indication that the price for the call is equivalent to the rate for a Local Call as set by the relevant Originating Communications Provider, where such a rate exists;

‘Mobile Network Code’ means a Telephone Number that is part of the International Mobile Station Identity that is Adopted or otherwise used to identify the home network of the mobile terminal or mobile user;

‘Mobile Number’ means a Telephone Number, from a range of numbers in Part A of this document, that is Adopted or otherwise used to identify Apparatus designed or adapted to be capable of being used while in motion;

‘Mobile Number Portability Code’ means a Number Portability Code that is Adopted or otherwise used in conjunction with Mobile Numbers;

‘Mobile Service’ means a service consisting in the conveyance of Signals, by means of an Electronic Communications Network, where every Signal that is conveyed thereby has been, or is to be, conveyed through the agency of Wireless Telegraphy to or from Apparatus designed or adapted to be capable of being used while in motion;

‘National Call’ means a call made from one Geographic Number to another Geographic Number that is not a Local Call;

‘National-Dialling-Only Number’ means a Geographic Number that can only be Adopted or otherwise used with its Geographic Area Code and for purposes where End-Users will not dial it;

‘National Rate’ means an indication that the price for the call is equivalent to the rate for a geographic National Call set by the relevant Originating Communications Provider, where such a rate exists;

‘National Signalling Point Code’ means a Signalling Point Code that constitutes an independent address for national purposes, in accordance with ITU-T Recommendations Q.704 and Q.705;

‘National Significant Number’ means, in the case of a Geographic Number, the Geographic Area Code followed by the Local Number, and in the case of a Mobile or Personal Number, the Subscriber Number;

‘Network Code’ means a Telephone Number that is Adopted or otherwise used for network purposes only;

‘Network Specific Signalling Point Codes’ means a Signalling Point Code that identifies separate points within a network;

‘Network Termination and Testing Apparatus’ means an item of Apparatus comprised in an Electronic Communications Network installed in a fixed position on Served Premises which enables:

- (i) Approved Apparatus to be readily connected to, and disconnected from, the Electronic Communications Network;
- (ii) the conveyance of Signals between such Approved Apparatus and the Electronic Communications Network; and
- (iii) the due functioning of the Electronic Communications Network to be tested, but the only other functions of which, if any, are:
 - (a) to supply energy between such Approved Apparatus and the Electronic Communications Network;
 - (b) to protect the safety or security of the operation of the Electronic Communications Network; or
 - (c) to enable other operations exclusively related to the running of the Electronic Communications Network to be performed or the due functioning of any system to which the Electronic Communications Network is or is to be connected to be tested (separately or together with the Electronic Communications Network);

‘Network Termination Point’ means the physical point at which a Subscriber is provided with access to a Public Electronic Communications Network and, where it concerns Electronic Communications Networks involving switching or routing, that physical point is identified by means of a specific network address, which may be linked to the Telephone Number or name of a Subscriber. A Network Termination Point provided at a fixed position on Served Premises shall be within an item of Network Termination and Testing Apparatus;

‘Non-Geographic Number’ means any Public Telephone Network Number other than a Geographic Number;

‘Non-Geographic Number Portability Code’ means a Telephone Number that is Adopted or otherwise used for routing non-geographic ported calls in accordance with the Functional Specification;

‘Non-Geographic Number Portability Transit Code’ means a Telephone Number that is Adopted or otherwise used for transit routing of non-geographic ported calls in accordance with the Functional Specification;

‘Number Portability’ means a facility whereby Subscribers who so request can retain their Telephone Number on a Public Telephone Network, independently of the person providing the service at the Network Termination Point of a Subscriber-

- (i) in the case of Geographic Numbers, at a specific location; or
- (ii) in the case of Non-Geographic Numbers, at any location,

provided that such retention of a Telephone Number is in accordance with this Document;

'Number Portability Code' means a Telephone Number that is Adopted or otherwise used for routing ported calls in accordance with the Functional Specification. There are six types of Number Portability Code, which facilitate Number Portability for:

- (i) Non-Geographic Numbers;
- (ii) Personal Numbers;
- (iii) Geographic Numbers;
- (iv) Mobile Numbers;
- (v) Non-Geographic Number transit; and
- (vi) Personal Number transit;

'Numbering Condition' means General Condition 17 of the General Conditions of Entitlement;

'Originating Communications Provider' means the Communications Provider from whose Electronic Communications Network the call originates;

'Parallel Running' means a facility provided by a Communications Provider when any range of Telephone Numbers is in the process of being changed whereby, in order to assist End-Users of the Public Telephone Network to adjust to such a change, an End-User may for a limited period of time dial a Telephone Number which has been superseded by another Telephone Number and still be connected to the Network Termination Point of the Called Party;

'Personal Number' means a Telephone Number, from a range of numbers in Part A of this document, assigned by a Personal Numbering Service Provider, which allows a Subscriber to receive calls or other communications at almost any Telephone Number, including a Mobile Number;

'Personal Number Portability Code' means a Telephone Number that is Adopted or otherwise used for routing Personal Number ported calls in accordance with the Functional Specification;

'Personal Number Portability Transit Code' means a Telephone Number that is Adopted or otherwise used for transit routing of Personal Number ported calls in accordance with the Functional Specification;

'Personal Numbering Service' means a service based on number translation that enables End-Users to be called or otherwise contacted, using a single Personal Telephone Number, and to receive those calls or other communications at almost any Telephone Number, including Mobile Numbers;

'Personal Numbering Service Provider' means a provider of Personal Numbering Services;

'Premium Rate Content Service' means a Premium Rate Service which carries a charge for the content of the call or other product or non-communication service

delivered in the course of, or as a direct consequence of, the call. Such charges are in addition to, or form part of, the total charge for accessing the Electronic Communications Service which delivers the content, product or non-communication service;

‘Premium Rate Non-content Service’ means a Premium Rate Service where there is no product or service provided other than the Electronic Communication Service itself;

‘Premium Rate Service’ means a service that is paid for through the telephone bill of a Subscriber and is charged at rates above Special Services, where, in relation to Premium Rate Content Services, the revenue for the call, which comprises the price of the telephone call plus the content, product or service, is shared between the Communications Provider and the provider of the content, product or non-communication service whether directly or indirectly. The cost of making Premium Rate Service calls is generally above those charged on 08, Special Service rates, (ie, above 10p per minute or per call) and up to £1.50 per minute or per call, or call capped up to £5.00;

‘Pre-selected Provider’ means a provider of a Public Telephone Network who has notified the Dominant Provider that it is able and willing to provide Carrier Pre-Selection to Subscribers to whom the Dominant Provider provides Publicly Available Telephone Services;

‘Public Pay Telephone’ means a telephone available to the general public, for the use of which the means of payment may include coins and/or credit/debit cards and/or pre-payment cards, including cards for use with dialling codes;

‘Public Telephone Network’ means an Electronic Communications Network which is used to provide Publicly Available Telephone Services; it supports the transfer between Network Termination Points of speech communications, and also other forms of voiceband communication, such as facsimile and data. For the purposes of this document the term ‘Public Telephone Network’ shall include Integrated Services Digital Networks;

‘Public Telephone Network Number’ means either a Geographic or a Non-Geographic Telephone Number that is Adopted or otherwise used on Public Telephone Networks;

‘Publicly Available Telephone Service’ means a service available to the public for originating and receiving national and international telephone calls and access to Emergency Organisations through a number or numbers in this document or an international telephone numbering plan, and in addition may, where relevant, include one or more of the following services: the provision of operator assistance services, Directory Enquiry Facilities, Directories, provision of Public Pay Telephones, provision of service under special terms, provision of specific facilities for End-Users with disabilities or with special social needs and/or the provision of non-geographic services;

‘Radiopaging Service’ means Electronic Communications Services consisting in the conveyance of Signals by means of Wireless Telegraphy where every Signal, apart from simple acknowledgement, is ultimately transmitted from a station for Wireless Telegraphy comprised in the Communications Provider’s Electronic Communications Network to a station for Wireless Telegraphy or Wireless Telegraphy Apparatus that is not comprised in that Network;

‘Regulations’ means the Electronic Communications (General Conditions) Regulations 2003’;

‘Reseller Identification Code’ means a three-character alphabetic Telephone Number (eg, ‘AAB’) that is Adopted or otherwise used for administrative purposes to identify those who resell Carrier Pre-Selection;

‘Served Premises’ means a single set of premises in single occupation where Apparatus has been installed for the purpose of the provision of Electronic Communications Services by means of an Electronic Communications Network at those premises;

‘Sexual Entertainment Service’ means an entertainment service of a clearly sexual nature, or any service for which the associated promotional material is of a clearly sexual nature, or indicates directly, or implies, that the service is of a sexual nature;

‘Signalling Point Code’ means a Telephone Number Adopted or otherwise used in Public Telephone Networks using C7. There are three types of Signalling Point Code:

- (i) International Signalling Point Codes ;
- (ii) National Signalling Point Codes ; and
- (iii) Network Specific Signalling Point Codes .

A Signalling Point Code identifies the originating or terminating node of each C7 message. A node may have more than one Signalling Point Code Allocated to enable the node to be partitioned into logically separate entities to identify various functions;

‘Special Service’ means a service paid for through the telephone bill of a Subscriber, and charged at rates set out in Part A of this document up to 10p per minute or National Rate, whichever is the highest. The cost of a call to an 08 numbers may be paid by the Called Party (eg, 080 Freephone Numbers), shared between the Customer and the Called Party (eg, 0845 Local Rate numbers), or paid wholly by the Customer (eg, 0870 National Rate numbers);

‘Subscriber’ means any person who is party to a contract with a provider of Public Electronic Communications Services for the supply of such Public Electronic Communications Services;

‘Subscriber Number’ means a Telephone Number allocated to a Subscriber;

'Targeted Transit Code' means a Telephone Number that is Adopted or otherwise used to route calls relating to particular Electronic Communications Services between two points of Interconnection on an Electronic Communications Network;

'Telex Service' means a real-time switched service for the delivery of text via a direct or indirect connection to a discrete Telex network;

'Telex Service Number' means a Telephone Number that Adopted or otherwise used in connection with Telex Services; and

'Terminating Communications Provider' means the Communications Provider on whose Electronic Communications Network a call terminates;

'Voiceband' means a communication of signals in the frequency band from 300Hz to 4kHz;

'Wireless Telegraphy' has the same meaning as in the Wireless Telegraphy Act, 1949;

'X.25 Data Network' refers to an Electronic Communications Network that supports the X.25 low speed packet switched data service.

2. Except in so far as the context otherwise requires, words or expressions shall have the meaning assigned to them and otherwise any word or expression shall have the same meaning as in the Regulations.

3. The Interpretation Act shall apply as if this document were an Act of Parliament.

Introduction

1 This document, the National Telephone Numbering Plan ('the Plan'), is divided into Part A and Part B.

2 Part A of the Plan sets out the numbers that the Director has designated are available for allocation as Telephone Numbers.

3 Part B of the Plan sets out such restrictions as that the Director considers appropriate on the Adoption and other uses of those numbers.

Part A: Telephone Numbers Available for Allocation

A1: Public Telephone Network Numbers (11 digits long, including the '0', unless otherwise stated)	
Number(s) beginning	Designation
01 and 02	Geographic Numbers – see Appendix A for full detail of appropriate Geographic Area Codes available
05	Corporate Numbers
070	Personal Numbering Service
076	Radiopaging Service
077 to 079 inclusive	Mobile Services
080	Special Services - No charge to Customer (except where charges shall be notified to callers at the start of the call)
082	Special Services: Internet for schools
084	Special Services: up to 5p per minute or per call, set by Terminating Communications Provider, or at Originating Communications Provider's 'Local Rate' (inclusive of value added tax)
087	Special Services: up to 10p per minute or per call, set by Terminating Communications Provider, or at Originating Communications Provider's 'National Rate' (inclusive of value added tax)
090	Premium Rate Content Services (including 0908 and 0909 for Sexual Entertainment Services)
091	Premium Rate Non-Content Services
092 to 099 inclusive	Broadband Services
118XXX	6-digit numbers used to access a Directory Enquiry Facility ('Type B Access Codes')
124 to 140, 143 to 146, 148 to 149, 160 to 169, and 181 to 189 inclusive	Numbers of up to 5-digits used to access an Indirect Access Provider ('Type B Access Codes')

A2: Telex Service Numbers (up to 10-digits long)	
Number(s)	Designation
Numbers beginning 2 to 9	Telex Service Numbers – see Appendix B for detail of appropriate initial geographic destination digits

A3: Network Codes	
Number(s)	Designation
089930 to 089999 inclusive	Inbound Routing Codes
504000 to 504799 inclusive	Non-Geographic Number Portability Codes
504800 to 504899 inclusive	Personal Number Portability Codes
505000 to 505799 inclusive	Non-Geographic Number Portability Transit Codes
505800 to 505899 inclusive	Personal Number Portability Transit Codes
510000 to 599999 inclusive	Geographic Number Portability Codes
7990 to 7999 inclusive	Mobile Number Portability Codes
7000 to 7089 inclusive	Targeted Transit Codes
0-1023 inclusive and 12288 to 16383 inclusive	National Signalling Point Codes
8000 to 8889 inclusive and 8900 to 8999 inclusive	Carrier Pre-Selection Codes
5-digit numbers in the format X-XXX-Z (where Z is in the range 0 to 7)	International Signalling Point Codes designated by the Director
234-00 to 234-99 and 235-00 to 235-99 inclusive	Mobile Network Codes
4-digit numbers	X25 Data Network Identification Codes

A4: Administrative Codes	
Number(s)	Designation
000 to 999 inclusive	Communications Provider Identification Codes
AAB to ZZZ inclusive	Reseller Identification Codes

Part B: Restrictions for the Adoption of Telephone Numbers

B1: General restriction on Telephone Numbers

B1 Those to whom the Director has Allocated any telephone number listed in Part A of the Plan shall not Adopt or otherwise use them, except in accordance with the applicable designation given for that number range.

B2: General restrictions on Telephone Numbers in Part A1

Notation of the National Significant Number

B2 The standard National Significant Number ('NSN') shall only be notated as follows: 'SABCDEFGHI'. 'S' equates to the first digit after the '0' (for example S is 1 or 2 for Geographic Numbers).

B3: Specific Restrictions on Telephone Numbers

B3.1 Geographic Numbers

Geographic Area Codes

B3.1.1 Geographic Numbers shall not be Adopted or otherwise used other than where part of the digit structure contains a relevant Geographic Area Code as set out in Appendix A to the Plan.

Out of Area use of Geographic Numbers

B3.1.2 Geographic Numbers shall not be Adopted or otherwise used for a Customer outside of the relevant geographic area except where the Customer has specified that they require a Telephone Number with the relevant Geographic Area Code.

Local Dialling

B3.1.3 Geographic Numbers shall not be Adopted or otherwise used other than where End-Users from Geographic Numbers in the same geographic area as the Called Party are able to use only the Subscriber Number (except where those numbers are National-Dialling-Only Numbers – see B3.1.5 below).

Numbering Reorganisations

B3.1.4 So as to ease the process of migrating to new Geographic Numbers during numbering reorganisations, new Geographic Numbers shall not be Adopted or otherwise used other than where the person to whom the number is Allocated has ensured that there is:

- a. an adequate notification and publicity to End-Users prior to a change;
- b. a period of Parallel Running when numbers to the old and new Telephone Numbers are available wherever technically possible; and
- c. a changed number announcement after the completion of the change for a period specified by the Director.

'National-Dialling-Only' Numbers

B3.1.5 Geographic Numbers shown as 'Free for National-Dialling-Only' in the National Numbering Scheme shall not be Adopted or otherwise used in circumstances where they have public visibility. Where these numbers are Adopted or used for outgoing services a presentation number that is either non-geographic or which permits Local Dialling shall appear for Calling-Line Identification purposes. In the event of a code change to eight-digit numbering in a geographic area, those who have Adopted or used 'National-Dialling-Only' numbers shall migrate to the appropriate new range by the end of Parallel Running.

Conservation Areas

B3.1.6 Numbers in geographic areas where a Conservation Area status is indicated shall only be Adopted or otherwise used in units of 1,000 numbers at a time.

B3.2 Personal Numbers

B3.2.1 Numbers in the 070 range shall not be Adopted or otherwise used for Premium Rate Services and those Adopting Personal Numbers shall not share with any End-User any revenue obtained from providing a Personal Numbering Service.

B3.3 Telex Service Numbers

B3.3.1 Telex Service Numbers shall not be Adopted or otherwise used other than as full national numbers, ie, including the Geographic Area Code and, where relevant, an Adoptees' identifying digit.

B3.4 Number Portability Codes

B3.4.1 In addition to the general restriction at B1, Number Portability Codes shall not be Adopted or otherwise used except in accordance with the applicable designation given for that number range and the Functional Specification.

Appendix A: Geographic Numbering - Geographic Area Codes and applicable Geographic Area

Area Code	Geographic Area	Conservation Status ¹	Area Code	Geographic Area	Conservation Status ¹
0113	Leeds		01255	Clacton-on-Sea	
0114	Sheffield		01256	Basingstoke
