

## The Mobile Broadband Group

11 December 2002

Mr Frank Phillips  
OfTel  
50 Ludgate Hill  
London EC4M 7JJ

Dear Mr Phillips

OfTel's Draft guidelines for the interconnection of public electronic communications networks.

The Mobile Broadband Group ("MBG" consisting of Hutchison3G, O2, Orange, T-Mobile and Vodafone) welcomes the opportunity to respond to OfTel's guidelines on the interconnection of PECNs.

The MBG supports OfTel's guidelines and believes that they will provide a basis for the new interconnection regime, once individual licences have been abolished.

In addition, the MBG agrees with the measures suggested to replace Annexe II and that it would be a good idea for OFCOM to maintain a voluntary list of all notified PECNs.

Yours sincerely

Hamish MacLeod  
On behalf of the MBG
