

Hi Jason,

Regarding the consultative document sent to me recently regarding Private Business Systems PMR (Standard) licences for the UK.

I have such a licence (Number 79687) I do advanced motorcycle training, my training courses taking me all over the UK for two to three days at a time. I never have more than two pupils, but mostly train on a one-to-one basis only.

How will the forthcoming changes affect me? I have approx. £3,000 worth of equipment, am I able to use this after, is it, 2003?

Many thanks for any information, help and any consideration that you may give my enquiry.
