

RA Ref: 0048174.
Customer Account No: 0048174/1.
Licence No: 92560.

Authorised Frequencies.

VHF.	UHF.
169.0125	461.4500
169.0875	462.1000
169.1375	462.3750
169.1625	
169.1875	
169.3125	

Reference the Consultation Document of 28th August 2001, we appear to be operating on a mixture of UK General and non UK General frequencies. Under the new proposals, if I migrate to the new licence can I continue to use the non-UK General frequencies, or must I change to the frequencies listed. If I have to change my frequencies, what sort of time period will I be allowed to get my radios re-programmed.

You mention that the cost of the new PBR Licence will be considerably less than the existing PMR Licence, if I remain with the PMR Licence for the next 5 years will I continue to pay the high licence fee.

I trust that these queries will help in your Consultation Programme.
