Dear Jason

RE: PMR (Standard) LICENCE No.694

Please see below the details of our existing Licence held by English Heritage in SE Region.

Licence No.694 National Grid reference ZU 000 000
164.06250 MHz -151.4 Hz CTCSS
AT
Osborne House
Isle of Wight
National Grid reference SZ 516 948

The subject licence would appear to fall into the category of 'Multi-site fixed locations' and should logically be reclassified as a 'Wide Area PBR' or whatever current terminology applies.

Would you require a list detailing the multiple sites?

Yours truly

A Freeman
