

Dear Mr. Simons,

We currently hold a PMR licence number 35622.

After your consultative document, I am slightly confused about what will happen to my licence. None of the frequencies we currently use are listed in the table. These frequencies have been licenced to us for use on UK Racecourses for many years.

Our frequencies are

168.3000MHz

169.0125MHz

169.1375MHz

168.9250MHz

169.1625MHz

169.1875MHz

Can you please advise me of who I need to speak with to discuss my particular issues and requirements?

Many Thanks,

Yours sincerely,

Robin Dibble  
Audio Systems Engineer
