### Description of character of service

Kohinoor FM is for the Panjabi speaking community of Leicester. It is community-led station, promoting inclusion and raising achievement and self-esteem amongst the target community. It features a wide variety of music, local news, events, information and discussion features for all ages. It offers training and encourages community participation.

The service broadcasts:

- Music. The main types of music broadcast over the course of each week are: Bhangra, Dharmic, folk ballads, Punjabi R&B, classical, Dhaddi Var and Shain (poetry).
- Speech. The main types of speech output broadcast over the course of each week are: community events, discussion of topical issues, culture, sports, education, religion and public information.
- Over the course of each week, programming in Panjabi and English is broadcast.
- The service provides original output<sup>1</sup> for a minimum of 12 hours per day.
- The service provides locally-produced output<sup>2</sup> for a minimum of 13 hours per day.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,
- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and
- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[December 2008. Revised September 2016]

<sup>1</sup> Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.

<sup>2</sup> Locally-produced output is any output made and broadcast from within the service's licensed coverage area. It may include all types of local production.
