

Key Commitments

Licence number: CR000182

Service name	Radio Plus
Licence area	Coventry (as shown in the licensed coverage area map)
Frequency	101.5 MHz

Description of character of service

Radio Plus is for the Christian community of Coventry. The programming has a particular emphasis on the 16-35 age group, while also aiming to reach a wider audience on behalf of the Christian community.

The service broadcasts:

- Music. The main types of music broadcast over the course of each week are: contemporary Christian music. Specialist music shows will also feature.
- Speech. The main types of speech output broadcast over the course of each week are: local and community news and information, weather and travel news, guests from the target community, what's on information, bible readings and discussions.
- The service provides original output¹ for a minimum of 56 hours per week.
- The service provides locally-produced output² for a minimum of 13 hours per day.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,
- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and
- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[December 2010. Revised June 2015; September 2016]

¹ Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.

² Locally-produced output is output made and broadcast from within the service's licensed coverage area.
