

Key Commitments

Licence number: CR000198

Service name	Inspire FM
Licence area	Luton (as shown in the licensed coverage area map)
Frequency	105.1 MHz

Description of character of service

Inspire FM is for the Muslim community in Luton. It reflects the traditions and cultures in the Muslim community by providing programmes and informational speech-based content in community languages.

The service broadcasts:

- **Music:** The main types of music broadcast over the course of the week are: contemporary Nasheeds and world music.
- **Speech:** The main types of speech output broadcast over the course of each week are: community news and information, interviews, sport, poetry and readings discussion programmes, lectures and recitations from the Quran.
- Over the course of each week, the majority of programming is in English, with some output in other languages in use in the local Muslim community,.
- The service provides original output¹ for a minimum of six hours per day.
- The service provides locally-produced output² for a minimum of 13 hours per day.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,
- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and
- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[August 2010. Revised September 2016]

¹ Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.

² Locally-produced output is any output made and broadcast from within the service's licensed coverage area. It may include all types of local production.
