

Key Commitments

Licence number: CR000220

Service name	Kane FM
Licence area	Guildford (as shown in the licensed coverage area map)
Frequency	103.7 MHz

Description of character of service

Kane FM is for the residents of Guildford, with particular focus on 15-39 year old fans of urban music. The local service has a focus on and supports independent urban music, and showcases local artists.

The service broadcasts:

- Music. The main type of music broadcast over the course of each week is: urban music, with some specialist genres and local independent music.
- Speech. The main types of speech output broadcast over the course of each week are: local and community news, events, local band and gig information, discussion and information programmes.
- The service provides original output¹ for a minimum of five hours on weekdays, and 18 hours per day at weekends.
- The service provides locally-produced output² for a minimum of 13 hours per day.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,
- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and
- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[January 2011. Revised January 2015; September 2016]

¹ Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.

² Locally-produced output is any output made and broadcast from within the service's licensed coverage area. It may include all types of local production.
