

Links between annexes and cost benefit analysis (Annex 7)

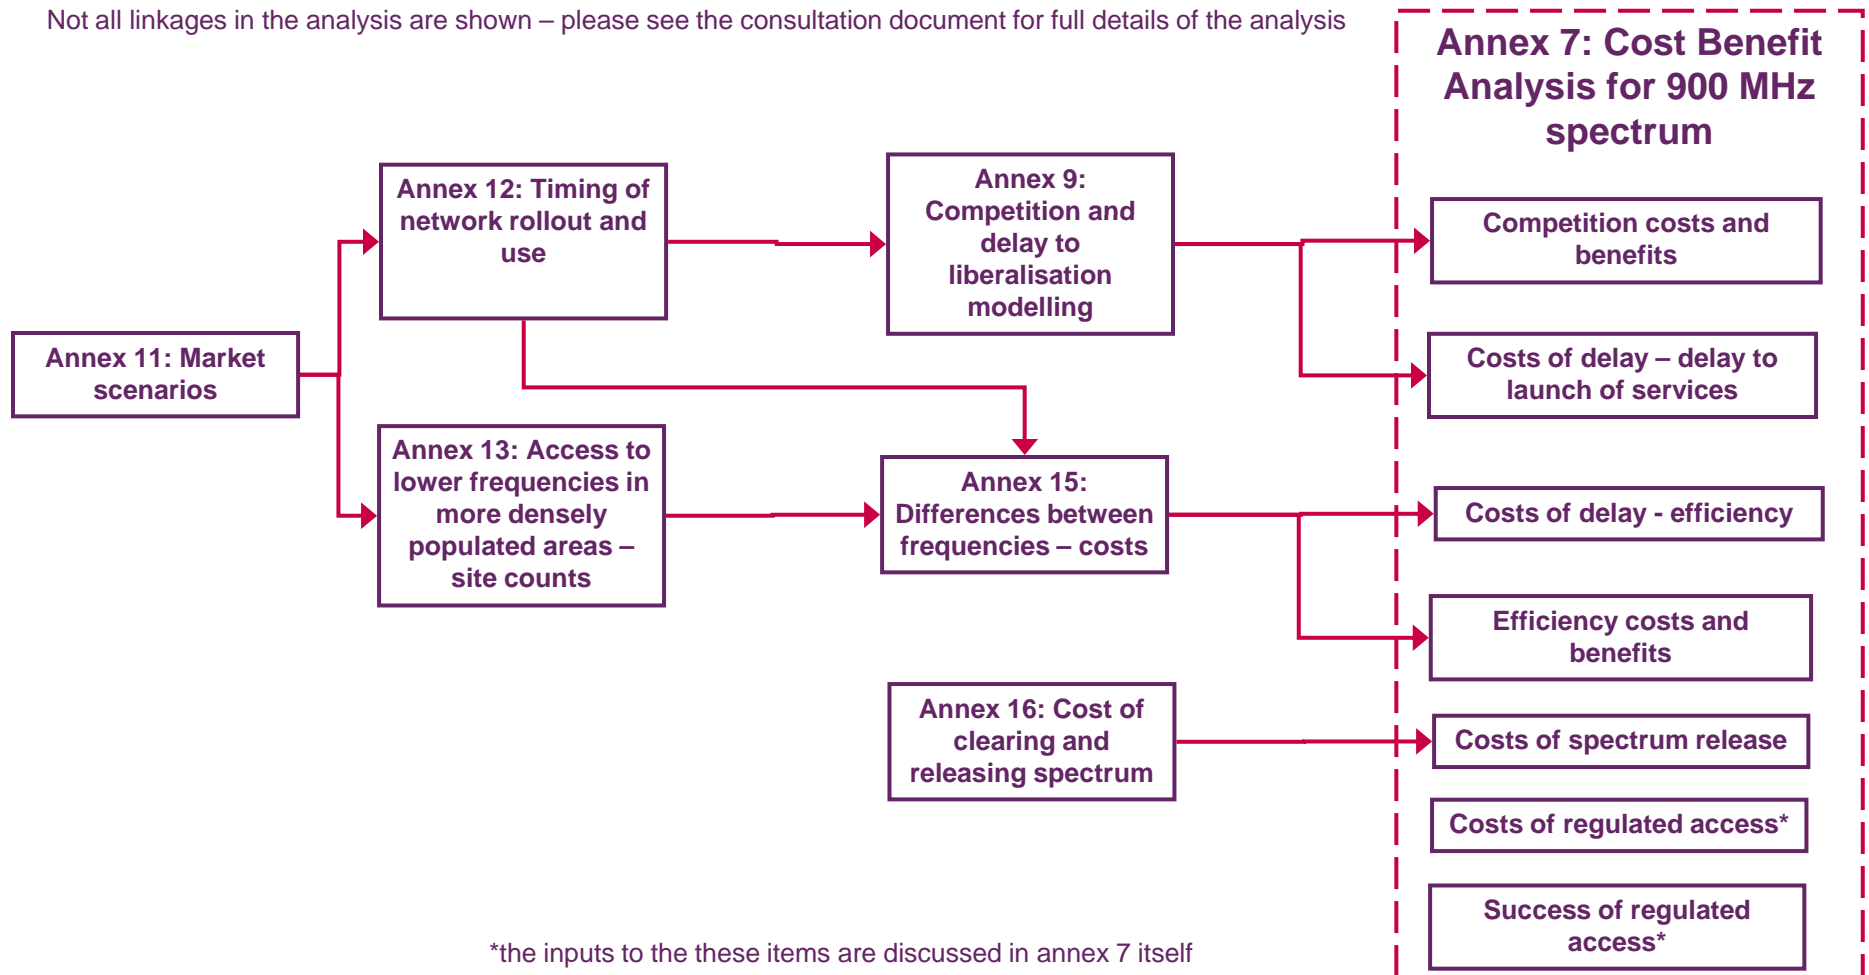

A document map

Introduction

- This document is a reference map to the links between the cost benefit analysis described in Annex 7 and other annexes and models in the consultation
- It presents a high level summary of how results feed from other parts of the document into the cost benefit analysis
- The links are also indicated, in greater detail, in Annex 7 itself and other parts of the document

Document map showing main linkages between cost benefit analysis and other annexes

Not all linkages in the analysis are shown – please see the consultation document for full details of the analysis

*the inputs to the these items are discussed in annex 7 itself

Index to sources of costs and benefits in Annex 7

Item	Paragraph
Competition costs and benefits	A7.72; table 2
Costs of delay – delay to launch of services	A7.135; table 12
Costs of delay – efficiency	A7.127; table 11
Efficiency costs and benefits	A7.117; tables 7-9
Costs of spectrum release	A7.141; tables 13-18
Costs of implementing regulated access	A7.160; tables 19 and 20
Success of regulated access	A7.118; table 10

Main connections between Annexes and models

Click on hyperlinks to open models

Annex	Model
7	<u>Net Benefits Model</u>
9	<u>Competition Impacts and Delay to Liberalisation</u>
13	<u>Cost differences in densely populated areas - technical model</u>
15 (and 12)	<u>Cost differences - cost model</u>
16	<u>Cost of release model, Accelerated migration model</u>
