

Jo

Festival Park have had a close working relationship with Valleys Radio since it's conception and have advertised actively with the station over the last 11 years. Festival Park are supportive of a relocation of the studios and offices, as we understand that it is integral in the station's ongoing success. Assuming that the format and level of service and contact remains at the same level and quality, we look forward to continuing to work with Valley's Radio in the future.
