

**Q1 Do you agree with Ofcom's view that the proposed non-emergency healthcare service represents a justified use of a three-digit number? Please give reasons for your views. :**

I do. I feel that if it were just a regular number people would still just ring 999 for non-emergency incidents.

**Q2 Do you agree with the DHs view that:**

**A) a three-digit number is the best choice for the proposed service and  
B) of the three-digit numbers available, 111 is the best option?**

**Please give reasons for your views. :**

A) Yes

B) I think 111 is fine. I don't think other numbers would be as memorable but i think any repetitive 3 digit number would do the job. 111 is just more memorable because 1 is easier to remember than 3 or 4.

**Q3 What are your views on the tariff options selected by the DH? :**

I wouldn't mind paying 10p per call but i think more people would call if it was free.

**Q4 Do you have any comments on the proposed notification of modification to the Numbering Condition in Annex 8 of this document:**
