Explanatory message for Notice under Regulation 63(1) – correction

Message sent on 22 March 2018 at 12:51

This is a correction to the 'Explanatory message for Notice under Regulation 63(1)' we sent to you at 12:35 today. In the first paragraph, where the message said "after the end of principal stage round 14", this should have said "after the end of principal stage round 15". The text below is the amended explanatory message.

Ofcom has today sent you a notice under Regulation 63(1) via the EAS. This message explains the basis for the notice. After the end of principal stage round 15, the amount of [REDACTED] highest financial exposure to date was [REDACTED] which is more than the total amount of [REDACTED] has on deposit for the purposes of the award process. Ofcom has therefore notified [REDACTED], pursuant to Regulation 63, that it is required to pay a further [REDACTED] as a deposit. The deadline for the payment of such sum in accordance with Regulation 59(3) is 23:59 on 23/03/2018.

You will recall that: A bidder's financial exposure after the end of a principal stage round shall be the amount in pounds which is equal to the sum of –

(a) the number of that bidder's principal stage bids for 2.3 GHz lots to which OFCOM assigned standing high bid status after the end of the principal stage round, multiplied by the round price at which those bids were made;

(b) the number of that bidder's principal stage bids for 3.4 GHz lots to which OFCOM assigned standing high bid status after the end of that principal stage round, multiplied by the round price at which those bids were made;

(c) the number of that bidder's principal stage bids for 2.3 GHz lots which would become winning principal stage bids in accordance with Regulation 39 (following the withdrawal of standing high bid status) if that principal stage round was the final principal stage round, multiplied by the round price at which those bids were made; and

(d) the number of that bidder's principal stage bids for 3.4 GHz lots which would become winning principal stage bids in accordance with Regulation 40 (following the withdrawal of standing high bid status) if that principal stage round was the final principal round, multiplied by the round price at which those bids were made.
