Dear Sara Winter
re. 2009 Ofcom Access services review.

Audio description is a brilliant service that has completely revolutionised my enjoyment of television. It's a narrative that describes the action, body language, facial expressions or scenery - all things that I might otherwise miss.

I understand that Ofcom Access Services review includes three options for the future of audio description. I am requesting that Ofcom choose option two and increase audio description to 20% across all channels.

I watch films and audio description allows me to follow what's happening - I can't enjoy a film properly without this and miss parts of the plot.

Please take on board my request for an increase of audio description to 20%.

Yours sincerely
