

**Confirmation Decision in respect to a Contravention of  
General Condition 17.5 of the General Conditions of Entitlement  
issued under section 96C of the  
Communications Act 2003**

**Notification issued by the Office of Communications (“Ofcom”) to  
Broadcast Telecom Limited (“Broadcast Telecom”), a company registered in the UK  
whose registered company number is 06996222**

1. Under section 96C of the Communications Act 2003 (the “Act”), Ofcom may issue a decision (a “Confirmation Decision”) confirming the imposition of requirements on a person where: (i) that person has been given a Notifications under 96A of the Act; (ii) Ofcom have allowed that person an opportunity to make representations about the matters notified; and (iii) the period allowed for the making of representations has expired. Ofcom may give a Confirmation Decision to a person if, having considered any representations, we are satisfied that the person has, in one or more of the respects notified, been in contravention of a condition specified in the Notification under 96A.
2. Section 45(1) of the Act gives Ofcom power to set conditions, including general conditions which are binding on the person to whom they are applied. A general condition is a condition which contains the provisions authorised or required by (amongst others) section 58 of the Act.
3. The Schedule to a Notification issued by the Director General of Telecommunications on 22 July 2003 under section 48(1) of the Act, which took effect from 25 July 2003, sets out the General Conditions of Entitlement (the “General Conditions” or “GCs”) which apply to all Communications Providers (“CPs”) defined in each GC. The GCs have, from time to time, been amended<sup>1</sup>.
4. GC 17.5 is a general condition which has been set by Ofcom under section 58 of the Act. GC 17.5 relates to the effective and efficient adoption and use of telephone numbers which Ofcom has allocated to a CP.
5. GC 17.5 states that:

*“Where Telephone Numbers have been Allocated<sup>2</sup> to the Communications Provider, that provider shall secure that such Telephone Numbers<sup>3</sup> are Adopted or otherwise used effectively and efficiently.”*

---

<sup>1</sup> A consolidated version of the General Conditions as at 28 May 2015 is located on the Ofcom website at <http://stakeholders.ofcom.org.uk/telecoms/ga-scheme/general-conditions/>.

<sup>2</sup> “Allocated”, as defined in Part 1 of the Schedule to the Notification issued by the Director General of Telecommunications on 22 July 2003, means “in relation to a Telephone Number [the] allocation by Ofcom”.

<sup>3</sup> “Telephone Number”, as defined in Part 1 of Schedule to the Notification issued by the Director General of Telecommunications on 22 July 2003, means, “subject to any order of the Secretary of State pursuant to section 56(7) of the Act, any number, including data of any description, that is used

6. For the purpose of GC 17.5, "Adoption" means:

"...doing any of the following by a Communications Provider in relation to an Allocated Telephone Number (whether or not such Allocation is to that Communications Provider) -

- (a) assigning or transferring that number to a particular Customer or piece of Apparatus;
- (b) using that Telephone Number for identifying a service or route used by that Communications Provider or by any of his Customers;
- (c) using that Telephone Number for identifying a communication as one to be transmitted by that Communications Provider;
- (d) designating that Telephone Number for use in selecting a service or the required elements or characteristics of a service; or
- (e) authorising the use of that Telephone Number by others for any of the following purposes:
  - (i) identifying the destination for, or recipient of, an Electronic Communication<sup>4</sup>;
  - (ii) identifying the origin, or sender, of an Electronic Communication;
  - (iii) identifying the route for an Electronic Communication;
  - (iv) identifying the source from which an Electronic Communication or Electronic Communications Service<sup>5</sup> may be obtained or accessed;
  - (v) selecting the service that is to be obtained or accessed, or required elements or characteristics of that service; or
  - (vi) identifying the Communications Provider by means of whose network or service an Electronic Communication is to be transmitted, or treated as transmitted."

7. Between 1 February 2012 and 10 May 2012, Ofcom allocated 3,973,002 Telephone Numbers to Broadcast Telecom in Broadcast Telecom's capacity as a CP. These Telephone Numbers are grouped into blocks ("Number Blocks")<sup>6</sup>. Each Telephone

---

(whether or not in connection with telephony) for any one or more of the purposes listed in section 56(5) of the Act."

<sup>4</sup> "Electronic Communication", as defined in Schedule to the Notification issued by the Director General of Telecommunications on 22 July 2003, means "a communication for transmission by means of an Electronic Communications Network" (where an Electronic Communications Network is, in turn, defined in section 32 of the Act).

<sup>5</sup> As defined in section 32 of the Act.

<sup>6</sup> Broadcast Telecom holds a total of 872 Number Blocks.

Number within that Number Block will start with the same combination of digits (“Block Code”), with each Block Code usually containing 6 or 7 digits. A schedule of the Number Blocks which have been allocated to Broadcast Telecom is attached to this Confirmation Decision as Annex 1.

### **Notification given by Ofcom to Broadcast Telecom**

8. On 1 April 2016, Ofcom issued a Notification under section 96A of the Act (“the Notification”) to Broadcast Telecom, stating that Ofcom had reasonable grounds for believing that Broadcast Telecom had contravened, and continued to contravene, GC17.5 in that it has failed to Adopt or otherwise use telephone numbers efficiently and effectively.
9. The Notification set out the steps that Broadcast Telecom should take in order to comply with the requirements of GC 17.5 and to remedy the consequences of the contravention forthwith and in any event no later than 13 May 2016. Those steps were:
  - a) in relation to the Telephone Numbers which Ofcom has allocated to Broadcast Telecom but which Broadcast Telecom has not adopted (either because the relevant Telephone Numbers have not been implemented in BT’s network at any stage, or because those Telephone Numbers have ceased to be so implemented) Broadcast Telecom should demonstrate to Ofcom, that the relevant Telephone Numbers have been implemented in BT’s network (or provide any other means of demonstrating that the Telephone Numbers are adopted); and
  - b) in relation to the Telephone Numbers which Ofcom has allocated to Broadcast Telecom, Broadcast Telecom should demonstrate to Ofcom that the relevant Telephone Numbers are being used efficiently and effectively by Broadcast Telecom.
10. The Notification was served on Broadcast Telecom on 1 April 2016 at its registered office, 7 Henrietta Street, London, WC2E 8PS. The Notification was returned to Ofcom by the Royal Mail marked “addressee gone away” on 8 April 2016. However, service was valid under section 394 of the Act as the Notification was sent by post to Broadcast Telecom’s address as registered with Companies House. Ofcom considers, notwithstanding that the Notification was returned, sending by post to the address registered by Broadcast Telecom itself for the receipt of such notices constitutes allowing sufficient opportunity to make representations.
11. It does not appear that Broadcast Telecom has taken the steps set out above, nor has it made representations to Ofcom as to why it should not be required to take such steps.
12. Broadcast Telecom continues to retain the Telephone Numbers which have been allocated to it by Ofcom. As set out in the Notification however, to the extent that Broadcast Telecom may, at any stage, have adopted those Telephone Numbers, Ofcom is satisfied that Broadcast Telecom has ceased to secure, and is not securing, the adoption or otherwise effective and efficient use of those Telephone Numbers. On

that basis, Ofcom is satisfied that Broadcast Telecom has contravened, and is continuing to contravene, GC 17.5.

### **Confirmation Decision given by Ofcom to Broadcast Telecom under section 96C of the Act**

13. For the reasons set out above, Ofcom confirms the imposition of requirements on Broadcast Telecom in accordance with the Notification. This means that, in order to comply with the requirements of GC 17.5 and to remedy the consequences of the contravention, Broadcast Telecom must:
  - a) in relation to the Telephone Numbers which Ofcom has allocated to Broadcast Telecom but which Broadcast Telecom has not adopted (either because the relevant Telephone Numbers have not been implemented in BT's network at any stage, or because those Telephone Numbers have ceased to be so implemented) Broadcast Telecom should demonstrate to Ofcom forthwith, and in any event no later than the time and date referred to below, that the relevant Telephone Numbers have been implemented in BT's network (or provide any other means of demonstrating that the Telephone Numbers are adopted); and
  - b) in relation to the Telephone Numbers which Ofcom has allocated to Broadcast Telecom, Broadcast Telecom should demonstrate to Ofcom forthwith, and in any event no later than the time and date referred to below, that the relevant Telephone Numbers are being used effectively and efficiently by Broadcast.

### **Next steps**

14. Broadcast Telecom has until **5.00pm on 27 May 2016** ("the Deadline") to comply with the requirements imposed by this Confirmation Decision. Failure to comply may result in Ofcom withdrawing the Telephone Numbers which have been allocated to Broadcast Telecom, in accordance with section 61(3) of the Act.

### **Interpretation**

15. Words or expressions used in this Notification have the same meaning as in the GCs or the Act, except as otherwise stated in this Notification.

Brian Potterill  
Director of Competition Policy  
20 May 2016
