Dear Sara Winter

re 2009 Ofcom Access review.

Audio Description is a brilliant service that has completely revolutionised our enjoyment of Television. At the bi monthly meeting of The Thanet Group (a member) of The Macular Disease Society held on Tuesday 20<sup>th</sup> October 2009 at the Old Charles Public House, Northdown Road, Coptonville Margate, Kent, it was agreed unanimously that I should write on their behalf expressing their enjoyment of television. Audio description is a brilliant service that has completely completed our enjoyment with the oral description making up ~~for~~ <sup>for</sup> our very restricted (limited) version.

We understand the Ofcom Access Services review includes three options for the future of audio description. I am requesting on the groups behalf that Ofcom chooses option two and increase audio description to 20% across all channels.

The groups viewing is widespread as to choice & type of programmes

Please note our request for an increase of audio description to 20 per cent.

Yours sincerely,

Group Leader.
