

Andy Williamson

**Representing:**

Scottish Government

**Question 1:**

**Do you have any comments on Ofcom's proposal to grant the variation request:**

It seems a sensible approach which would allow all license holders access to useful technology that wouldn't need changing.

**Question 2:**

**Do you have any comments on Ofcom's proposal to require the development of a new or revised coordination process:**

A new or revised coordination process is required. However it should be as simple as possible along the lines of the 5Ghz Light Licensing regime.
