### Your response

- *Q1. Ofcom would like to run a short, focused community radio licensing round. Our preferred option is to invite applications in areas where we have evidence of demand, after checking that there is a suitable frequency. Do you agree with this approach? If not, tell us why and what your preferred option would be.:*  
Yes we totally agree with the above, However as we can prove we are ready to start broadcasting on FM now and think a very short based focus round for communities who are not currently being served by a community station should be given a chance to broadcast
- *Q2. a) New community radio stations: Do you agree with our proposed revised coverage policy in relation to new community radio services? If not, please give us your reasons.:*  
We agree
- *b) Improvements to coverage for existing services: Do you agree with our proposal to consider requests to improve coverage within the licensed area for existing licensed services? If not, please give us your reasons.:*  
We agree
- *c) Extensions to coverage for existing services: Do you agree with our proposal to consider requests to extend the existing licensed area of a community radio service into an adjoining area or locality? We will consider such requests against statutory criteria, and propose to use six core considerations to help us decide whether or not to agree to a request. Do you agree with the core considerations we propose to use? If not, please give us your comments.:*  
We agree
- *Q3. Do you agree with Ofcom's proposals regarding its community radio work priorities? If not, please tell us why.:*  
Whilst we agree a short focused round is required next not another regional round.
