General Conditions of Entitlement

Unofficial consolidated version

Publication date: 4 January 2021
About this document

On 19 September 2017, Ofcom revoked the general conditions of entitlement (the ‘general conditions’) set out in the notification published by the Director General of Telecommunications on 22 July 2003 with effect from 1 October 2018 and set revised general conditions with effect from the same date.

This is an unofficial consolidated version of the revised general conditions which incorporates, for ease of reference, all the modifications made to these conditions since September 2017 in a single document.

While every reasonable effort is made to ensure that the information provided in this document is accurate, no guarantees of the accuracy of information are made, and this document has no legal effect. Therefore, in relation to each specific amendment, you are advised to consult the relevant notifications, listed on the final page of this document, as these contain an explanation of the reasons for the decision to amend and the specific modifications that have been made.

For the avoidance of doubt, in the case of any difference between texts, the text set out in the notification of 19 September 2017 and any subsequent notification published on Ofcom’s website shall take precedence over this unofficial version of the revised general conditions.

Legal basis for the General Conditions

Schedule to the notification under section 48(1) of the Communications Act 2003

Under the regulatory regime set out in the Communications Act 2003, communications providers do not require a licence to operate in the UK, but can be made subject to conditions of general application. This approach of authorisation subject to general conditions reflects the common European regulatory framework for electronic communications services and networks. This document sets out the general conditions which all communications providers (or all communications providers of a particular description) must comply with if they wish to provide services in the UK.

Broadly, the general conditions fall into three main categories: conditions relating to network functioning requirements (Part A); numbering and other technical conditions (Part B); and consumer protection conditions (Part C).

Definitions and interpretation relating to the conditions in this Schedule

The definitions set out at the end of this Schedule have effect except in so far as the context otherwise requires.

For the purpose of interpreting the Conditions in this Schedule:

a) except in so far as the context otherwise requires, words or expressions shall have the meaning assigned to them in the Schedule and otherwise any word or expression shall have the same meaning as it has in the Act;

b) headings and titles shall be disregarded;

c) expressions cognate with those referred to in this Schedule shall be construed accordingly; and

d) the Interpretation Act 1978 shall apply as if each of the Conditions in this Schedule were an Act of Parliament.
Part A: Network functioning conditions

A1 General network access and interconnection obligations

This condition requires all providers of public electronic communications networks to negotiate interconnection agreements with other network providers on request and requires all communications providers to respect the confidentiality of information obtained in connection with network access negotiations.

Scope

A1.1 The provisions of this Condition apply as follows:

(a) Condition A1.2 applies to any person who provides a Public Electronic Communications Network; and

(b) Condition A1.3 applies to any Communications Provider,

and each person to whom a provision applies is a ‘Regulated Provider’ for the purposes of that provision.

Obligation to negotiate interconnection

A1.2 Any Regulated Provider shall, to the extent requested by any other provider of a Public Electronic Communications Network in any part of the United Kingdom or European Union, negotiate with that provider with a view to concluding an agreement for Interconnection (or an amendment to an existing agreement for Interconnection) within a reasonable period.

Information obtained during negotiations for network access

A1.3 Where a Regulated Provider acquires information from another Communications Provider in confidence before, during or after the process of negotiating Network Access, the Regulated Provider shall use that information solely for the purpose for which it was supplied and respect at all times the confidentiality of information transmitted or stored. Such information shall not be passed on to any other party (in particular other departments, subsidiaries or partners) for whom such information could provide a competitive advantage.
A2 Standards and specifications

This condition ensures that all communications providers adopt common technical standards by requiring them to comply with any compulsory EU standards and specifications and take account of other European and international standards and specifications.

Scope

A2.1 This Condition applies to all Communications Providers.

European standards and specifications

A2.2 Communications Providers must comply with any relevant compulsory standards and/or specifications listed in the Official Journal of the European Union for the provision of services, technical interfaces and/or network functions pursuant to Article 17 of the Framework Directive.

A2.3 In addition, Communications Providers shall take full account of:

(a) any relevant non-compulsory standards and/or specifications published in the Official Journal of the European Union; and

(b) in the absence of such standards and/or specifications referred to in Condition A2.3(a), any relevant standards and/or specifications adopted by the European Committee for Standardisation (CEN), the European Committee for Electrotechnical Standardisation (CENELEC) and the European Telecommunications Standards Institute (ETSI).

International standards and specifications

A2.4 In the absence of such standards and/or specifications referred to in Conditions A2.2 and A2.3, Communications Providers shall take full account of international standards or recommendations adopted by the International Telecommunication Union (ITU), the European Conference of Postal and Telecommunications Administrations (CEPT), the International Organisation for Standardisation (ISO) and the International Electrotechnical Committee (IEC).
A3 Availability of services and access to emergency services

This condition aims to ensure the fullest possible availability of public communications services at all times, including in the event of a disaster or catastrophic network failure, and uninterrupted access to emergency organisations. It requires providers of call services to ensure that calls can be made to emergency organisations free of charge and to make caller location information available to emergency organisations where technically feasible. It also includes specific rules relating to providers of VoIP outbound call services which aim to ensure that users of those services are aware of any potential limitations on making calls to emergency organisations and that accurate and up-to-date caller location information can be provided to the emergency organisations where possible.

Scope

A3.1 The provisions of this Condition apply as follows:

(a) Condition A3.2 applies to any person who provides a Publicly Available Telephone Service and/or a Public Electronic Communications Network over which a Publicly Available Telephone Service is provided;

(b) Conditions A3.3 and A3.6(c) apply to any provider of a VoIP Outbound Call Service; and

(c) Conditions A3.4, A3.5 and A3.6(a) and (b) apply to any Communications Provider who provides End-Users with an Electronic Communications Service, or provides access to such a service by means of a Pay Telephone, for originating calls to a number or numbers in the National Telephone Numbering Plan, excluding any Click to Call Service,

and each person to whom a provision applies is a ‘Regulated Provider’ for the purposes of that provision.

Availability of services, including access to emergency services

A3.2 Regulated Providers must take all necessary measures to ensure:

(a) the fullest possible availability of the Public Electronic Communications Network and Publicly Available Telephone Services provided by them in the event of catastrophic network breakdown or in cases of force majeure; and

(b) uninterrupted access to Emergency Organisations as part of any Publicly Available Telephone Services offered.

A3.3 Regulated Providers must inform their Domestic and Small Business Customers in plain English and in an easily accessible manner that access to Emergency Organisations using VoIP Outbound Call Services may cease if there is a power cut or power failure, or a failure

of the internet connection on which the service relies. This information must be provided
during the sales process, within the terms and conditions of use, and in any user guide
issued by the Regulated Provider.

Emergency call numbers (“112” and “999”):2

A3.4 Regulated Providers must ensure that all End-Users can access Emergency Organisations by
using the emergency call numbers “112” and “999” at no charge and, in the case of a Pay
Telephone, without having to use coins or cards. In the case of Regulated Providers
providing Mobile Communications Services, this obligation also applies to access by all End-
Users to Emergency Organisations by using eCalls.

Caller location information

A3.5 Regulated Providers shall, to the extent technically feasible, make accurate and reliable
Caller Location Information available for all calls to the emergency call numbers “112” and
“999”, at no charge to the Emergency Organisations handling those calls, at the time the call
is answered by those organisations.

A3.6 In order to make accurate and reliable Caller Location Information available to the
Emergency Organisations handling the calls to “112” and “999”, a Regulated Provider must
comply with the following requirements:

(a) where it provides an Electronic Communications Service at a fixed location, the Caller
Location Information must, at least, accurately reflect the fixed location of the End-
User’s terminal equipment including the full postal address;

(b) where it provides a Mobile Communications Service, the Caller Location Information
must include, at least, the Cell Identification of the cell from which the call is being
made and, where available, an indication of the radius of coverage of the cell. In
exceptional circumstances, where the Cell Identification is temporarily unavailable for
technical reasons, the Caller Location Information must include the Zone Code; and

(c) where it provides a VoIP Outbound Call Service:

(i) it must, where its VoIP Outbound Call Service is to be used principally at a single
fixed location, recommend its Domestic and Small Business Customers to register
with it the address of the place where the VoIP Outbound Call Service is to be used
prior to its activation and update that address information if there is any change;
and

(ii) where it has a reasonable expectation that, or has been informed that, its VoIP
Outbound Call Service is to be accessed from multiple locations, it must recommend

2 See also Conditions C5.8 and C5.9 (“Relay service”) and Condition C5.10 (“Mobile SMS access to emergency
organisations”), which aim to ensure that people with hearing or speech impairments can contact “112” and “999” by
sending a text message, or by dialling “18000” from terminal equipment which is compatible with text relay (including
textphones, Braille readers, personal computers and mobile telephones).
that its **Domestic and Small Business Customers** register and update the location information associated with it, whenever accessing the **VoIP Outbound Call Service** from a new location.
A4 Emergency planning

This condition requires all communications providers who provide publicly available telephone services or a public telephone network over which these services are provided, to agree arrangements with emergency organisations and other public authorities to ensure the provision or rapid restoration of networks and services in the event of a disaster.

Scope

A4.1 This Condition applies to any Communications Provider who provides a Publicly Available Telephone Service and/or a Public Electronic Communications Network over which a Publicly Available Telephone Service is provided, each of whom is a ‘Regulated Provider’ for the purposes of this Condition.

Provision or restoration of services

A4.2 Subject to Condition A4.4, Regulated Providers shall, on the request of and in consultation with:

(a) the authorities responsible for Emergency Organisations; and

(b) such departments of central and local government as Ofcom may from time to time direct for the purposes of this Condition 3,

make arrangements for the provision or rapid restoration of such communications services as are practicable and may reasonably be required in disasters (including in any major incident having a significant effect on the general public and in any incident of contamination involving radioactive substances or other toxic materials).

A4.3 Subject to Condition A4.4, Regulated Providers shall, on request by any person as is designated for the purpose in any such arrangements, implement those arrangements in so far as is reasonable and practicable to do so.

A4.4 Nothing in this Condition precludes Regulated Providers from:

(a) recovering the costs incurred in making or implementing any such arrangements; or

(b) making the implementation of any such arrangements conditional upon being indemnified by the person for whom the arrangements are to be implemented for all costs incurred as a consequence of the implementation.

3 See Ofcom’s emergency planning direction
A5  Must carry obligations

This condition provides Ofcom with a power to direct that broadcasting network providers must carry certain public service broadcasting (PSB) television channels. This list of PSB channels is set out in the Communications Act 2003 and is subject to revision by order of the Secretary of State.

Scope

A5.1  This Condition applies to any person who provides an Appropriate Network, each of whom is a ‘Regulated Provider’ for the purposes of this Condition.

Must Carry Obligations

A5.2  Regulated Providers shall, on a direction of Ofcom made from time to time for the purposes of this Condition, broadcast or otherwise transmit any service specified in that direction which is also set out in section 64(3) of the Act as modified from time to time by the Secretary of State pursuant to section 64 of the Act.

A5.3  Regulated Providers shall comply with any order made by the Secretary of State from time to time under section 64(11) of the Act with respect to the terms on which such services must be broadcast or otherwise transmitted.
Part B: Numbering and technical conditions

B1 Allocation, adoption and use of telephone numbers

This condition sets out the terms under which communications providers may apply for, be allocated and adopt telephone numbers so as to ensure their effective and efficient use.

Scope

B1.1 This Condition applies to all Communications Providers.

General prohibitions on adoption and use

B1.2 A Communications Provider shall not Adopt Telephone Numbers from Part A of the National Telephone Numbering Plan unless:

(a) the Telephone Numbers have been Allocated to the Communications Provider; or

(b) the Communications Provider has been authorised (either directly or indirectly) to Adopt those Telephone Numbers by the person Allocated those Telephone Numbers.

B1.3 The Communications Provider may only use a Telephone Number from Part A of the National Telephone Numbering Plan where that Telephone Number has been Allocated to a person, unless the use in question is for the purposes of indicating that the Telephone Number has not been Allocated.

B1.4 The Communications Provider may only use (or, where specified, Adopt) a Telephone Number listed in Part C of the National Telephone Numbering Plan where such use or Adoption is in accordance with the designation attributed to that Telephone Number.

Requirements in connection with the adoption of telephone numbers

B1.5 In providing an Electronic Communications Network or an Electronic Communications Service, the Communications Provider shall comply with:

(a) all applicable restrictions and requirements as are set out in the National Telephone Numbering Plan; and

(b) any restrictions or requirements set out in a notification issued by Ofcom to that Communications Provider recording the Allocation of specific Telephone Numbers to it.

---

4 See the National Telephone Numbering Plan
B1.6 Where Telephone Numbers have been Allocated to the Communications Provider, that provider shall secure that such Telephone Numbers are Adopted or otherwise used effectively and efficiently.

B1.7 The Communications Provider shall not unduly discriminate against another Communications Provider in relation to its Adoption or use of Telephone Numbers for purposes connected with the use by that other Communications Provider, or its Customers, of any Electronic Communications Network or Electronic Communications Service.

B1.8 The Communications Provider shall take all reasonably practicable steps to secure that its Customers, in using Telephone Numbers, comply (where applicable) with the provisions of this Condition, the provisions of the National Telephone Numbering Plan and the Non-provider Numbering Condition. \(^5\)

Requirements in connection with the transfer of use of allocated telephone numbers

B1.9 The Communications Provider shall not transfer use of Telephone Numbers from the National Telephone Numbering Plan unless:

(a) the Telephone Numbers have been Allocated to the Communications Provider; or the Communications Provider has been authorised (either directly or indirectly) to Adopt those Telephone Numbers by the person Allocated those Telephone Numbers;

(b) the Telephone Numbers are used in accordance with the National Telephone Numbering Plan; and

(c) the Telephone Numbers are Adopted or otherwise used effectively and efficiently.

Application for allocation or reservation of telephone numbers

B1.10 When applying for an Allocation or reservation of Telephone Numbers, the Communications Provider shall:

(a) use Ofcom’s online number management system or, if that system is unavailable, the application form made available on the Ofcom website from time to time;

(b) provide such information as is required by such system or application form; and

(c) provide to Ofcom, on request, any other information considered by Ofcom to be relevant to the application, and the supply of which does not place an undue burden on the Communications Provider.

B1.11 Ofcom will determine, taking into account the provisions of the National Telephone Numbering Plan, any application for Telephone Numbers by the end of the period of three weeks after the date of the receipt by it of the completed application form. Where Ofcom has required any additional information under Condition B1.10(c) in relation to any

---

\(^5\) See Ofcom’s non-provider numbering condition
application, Ofcom will determine the application by the end of the period of three weeks after the date of the receipt by it of that additional information.

Charging for specified geographic numbers

B1.12 The Communications Provider shall pay to Ofcom any applicable Annual Number Charge within 14 days of receipt of an invoice from Ofcom.

B1.13 The Annual Number Charge will be billed annually in arrears following the end of each Charging Year.

B1.14 The Annual Number Charge for a Communications Provider shall be:

(a) the charges applicable to that Communications Provider calculated in accordance with Condition B1.15; less

(b) any reduction applicable to that Communications Provider calculated in accordance with Condition B1.16.

B1.15 In respect of each Specified Geographic Number the Communications Provider must pay £0.1/365 for every day within the Charging Year for which that Specified Geographic Number is Allocated to it. Such amounts are payable irrespective of whether or not a Specified Geographic Number has been Adopted or is in use.

B1.16 If relevant, the amount of any reduction for a Communications Provider in respect of a Charging Year shall be:

(a) (the total number of the Communications Provider’s Ported Specified Geographic Numbers) x £0.1 ÷ (the Average Industry Utilisation Rate); plus

(b) (the total number of the Communications Provider’s WLR Specified Geographic Numbers) x £0.1 ÷ (the BT Average Utilisation Rate); plus

(c) (the total number of the Communications Provider’s Public Payphone Specified Geographic Numbers) x £0.1 ÷ (the Communications Provider Average Utilisation Rate).

B1.17 If any reduction calculated pursuant to Condition B1.16 exceeds the charges applicable to that Communications Provider calculated in accordance with Condition B1.15, the Annual Number Charge shall be zero.

Withdrawal of a number allocation

B1.18 Ofcom may withdraw an Allocation of Telephone Numbers from a Communications Provider where:

(a) the Communications Provider has not Adopted those Telephone Numbers within six months, or such other period as Ofcom may from time to time direct, from the date on which the Telephone Numbers were Allocated;
(b) in relation to an Allocation of a series of Telephone Numbers, the Communications Provider has not Adopted those Telephone Numbers to any significant extent within six months, or such other period as Ofcom may from time to time direct, from the date on which the series of Telephone Numbers was Allocated;

(c) the Communications Provider is unable to demonstrate to Ofcom’s reasonable satisfaction either:

(i) that those Telephone Numbers are assigned to a Subscriber (or Subscribers); or

(ii) if those Telephone Numbers are not so assigned, that they were so assigned within the preceding twelve months, and

the withdrawal is made for the purpose of securing that what appears to Ofcom to be the best and most efficient use is made of the numbers and other data that are appropriate for use as Telephone Numbers;

(d) the Communications Provider has used a significant proportion of those Telephone Numbers, or has used such Allocation to a significant extent, inconsistently with this Condition, or to engage in fraud or misuse; or

(e) Ofcom has advised the Communications Provider in writing that a significant proportion of those Telephone Numbers has been used, or that such Allocation has been used to a significant extent, to cause harm or a nuisance, and the Communications Provider has failed to take adequate steps to prevent such harm or nuisance.

Requirements in connection with the use of telephone numbers

B1.19 When providing an Electronic Communications Service by means of an Unbundled Tariff Number, the Communications Provider must comply with the tariff principles set out in Conditions B1.21 – B1.27 and any applicable maximum price specified in the National Telephone Numbering Plan.

B1.20 Condition B1.19 does not apply in respect of:

(a) calls to an Unbundled Tariff Number from a Public Pay Telephone; and

(b) calls originating outside of the United Kingdom to an Unbundled Tariff Number.

B1.21 The retail price for a call to an Unbundled Tariff Number which is charged to a Consumer is the sum of:

(a) the Access Charge Element; and

(b) the Service Charge Element, subject to any special offers, discounts or call bundling arrangements which the Communications Provider offers to that Consumer.

B1.22 The Access Charge must:
(a) not vary within a Consumer’s tariff package by reference to:

(i) the Unbundled Tariff Number that is called; or

(ii) the time or day of the call; and

(b) be set at a pence per minute rate.

B1.23 The Service Charge:

(a) must not vary according to the Communications Provider that retails or originates the call;

(b) must not vary by the time or day of the call;

(c) must be no greater than any applicable maximum price specified in the National Telephone Numbering Plan;

(d) may be set at a pence per minute, a pence per call rate, or a rate which combines a pence per minute rate and a pence per call rate; and

(e) must not require another Communications Provider to have systems able to accommodate more Price Points than are required under Condition B1.28, unless that Communications Provider agrees otherwise.

B1.24 For the purpose of calculating an Access Charge Element, the Communications Provider:

(a) may round up the length of the call to 1 minute for a call lasting less than 1 minute; and

(b) for a call lasting more than 1 minute but less than a whole number of minutes, must treat that call in accordance with the rounding principles it would apply to a geographic call of an equivalent length for the purpose of billing a Consumer.

B1.25 For the purpose of calculating the Service Charge Element where the Service Charge comprises or includes a pence per minute rate, the Communications Provider must round up the length of the call to the next nearest whole second for a call lasting less than a whole number of seconds (so that, for example, a call lasting 3 minutes 14.5 seconds would be charged in respect of the Service Charge Element, at the applicable Service Charge multiplied by 3.25).

B1.26 Condition B1.27 applies if both the following conditions in respect of a call to an Unbundled Tariff Number are satisfied:

(a) the Consumer has purchased a bundle of inclusive call minutes or inclusive calls from the Communications Provider, which includes call minutes (or calls) to one or more Unbundled Tariff Numbers; and

(b) the call is to an Unbundled Tariff Number which counts towards remaining minutes (or calls) in the bundle of inclusive minutes (or calls) purchased by the Consumer.
B1.27 Where this **Condition** applies, the **Access Charge Element** shall be deemed to be zero.

B1.28 For the purpose of calculating and billing the **Service Charge Element** of the retail price for calls to **Unbundled Tariff Numbers**, the **Communications Provider** must ensure that it has systems able to accommodate up to one hundred (100) different **Price Points**.

B1.29 In relation to the obligation under **Condition** B1.28, the **Price Points** accommodated by the systems of the **Communications Provider** must:

(a) reflect on a fair and reasonable basis the rates proposed to the **Communications Provider** by other providers in respect of their **Service Charges**, taking account of the volume and range of such proposals; and

(b) be set in increments of no less than £0.01.

B2 Directory information

This condition requires all communications providers to whom telephone numbers are allocated to pass on the directory information of their subscribers to other persons so as to ensure that a comprehensive directory database can be compiled from which directory products and services can be provided. It also requires directories to be updated at least once a year and provided to subscribers on request.

Scope

B2.1 This Condition applies to all providers of Publicly Available Telephone Services which assign Telephone Numbers to Subscribers, each of whom is a ‘Regulated Provider’ for the purposes of this Condition.

Provision of directory information

B2.2 In order to facilitate the provision of publicly available Directories and Directory Enquiry Facilities, Regulated Providers must meet all reasonable requests to make Directory Information available on terms which are fair, objective, cost-oriented and non-discriminatory, and in a format which is agreed between the Regulated Provider and the person requesting the information.

B2.3 Regulated Providers must supply each of their Subscribers, on request, with a Directory or Directories containing Directory Information on all Subscribers who have been assigned Telephone Numbers by any Regulated Provider for any specified area in the United Kingdom. Any Directories supplied shall not contain Directory Information for any Subscribers who have exercised their right to have their Directory Information excluded from Directories.

B2.4 Regulated Providers must ensure that any Directories they produce are updated at least once a year.

B2.5 Ofcom may from time to time direct that a Directory is available in a particular form.

Charges

B2.6 Regulated Providers may charge:

(a) End-Users a fee for making Directories available to them; and

(b) their Subscribers a fee for the inclusion of their Directory Information in a Directory or Directory Enquiry Facility.

Any such fees (of either type) must be reasonable.

Data protection

B2.7 This Condition applies subject to the requirements of Relevant Data Protection Legislation.
B3 Number portability

This condition sets out the rules which communications providers must follow when customers request to take their landline and/or mobile number(s) with them when changing provider.

Scope

B3.1 This Condition applies to any person who provides:

(a) an Electronic Communications Network; or

(b) an Electronic Communications Service to a Subscriber with a number or numbers from the National Telephone Numbering Plan.

B3.2 For the purposes of this Condition:

(a) any such person referred to in Condition B3.1 is a ‘Regulated Provider’; and

(b) any such Subscriber referred to in Condition B3.1(b) is a ‘Relevant Subscriber’.

Number Portability

B3.3 The Regulated Provider shall provide Number Portability within the shortest possible time, including subsequent activation, on reasonable terms and conditions, including charges, to any of its Relevant Subscribers who so request.

B3.4 The Regulated Provider shall ensure in all cases, other than Mobile Number Portability (as to which see Conditions C7.38 and C7.39), porting of these numbers and their subsequent activation shall be completed within one business day once all necessary validation processes have been completed, the network connection is ready for use by the Relevant Subscriber, and the Donor Provider has received a request to activate the porting of these numbers from the Recipient Provider.

B3.5 The Recipient Provider shall request porting from the Donor Provider as soon as it is reasonably practicable after receiving the Relevant Subscriber Request to Port from its new Subscriber.

B3.6 The Regulated Provider shall, pursuant to a request from another Regulated Provider, provide Portability as soon as is reasonably practicable in relation to that request on reasonable terms. Any charges for the provision of such Portability shall be made in accordance with the following principles:

(a) subject always to the requirement of reasonableness, charges shall be cost oriented and based on the incremental costs of providing Portability unless:

(i) the Donor Provider and the Recipient Provider have agreed another basis for the charges, or

(ii) Ofcom has directed that another basis for charges should be used;
(b) the Donor Provider shall make no charge in relation to Porting System Set-Up Costs or Additional Conveyance Costs;

(c) in respect of Mobile Portability, the Donor Provider shall make no charge or annual fee for ongoing costs relating to registration of a ported Telephone Number or a Relevant Subscriber;

(d) charges levied by the Donor Provider shall be based on the reasonable costs incurred by it in providing Portability with respect to each Telephone Number;

(e) any direct charges to Relevant Subscribers for providing Number Portability do not act as a disincentive to Subscribers against changing their Regulated Provider.

B3.7 Where the Regulated Provider provides Portability in accordance with Condition B3.6:

(a) the Recipient Provider; and

(b) the Portability Transit Provider,

shall, as appropriate, provide Portability on reasonable terms.

B3.8 The Regulated Provider shall, on written request, provide Ofcom with a record of each Telephone Number in relation to which it is providing Portability, specifying the relevant Recipient Provider in each case.

B3.9 The Regulated Provider shall inform the Relevant Subscriber of the date when Number Portability will be provided to that Subscriber.

B3.10 Where Regulated Providers delay the porting of a Telephone Number that is not a Mobile Number for more than one business day or where there is an abuse of porting by them or on their behalf, they shall provide reasonable compensation as soon as is reasonably practicable to the Relevant Subscriber for such delay and/or abuse.

B3.11 The Regulated Provider shall set out in plain English and in an accessible manner for each Relevant Subscriber how Relevant Subscribers can access the compensation provided for in Condition B3.10 above, and how any compensation will be paid to the Subscriber.
B4 Access to numbers and services

This condition aims to ensure that end-users can access all telephone numbers (and the services provided on those numbers) and that communications providers only block access to telephone numbers where instructed to do so by Ofcom for reasons of fraud or misuse.

Scope

B4.1 The provisions of this Condition apply as follows:

(a) Conditions B4.2 to B4.4 apply to all Communications Providers; and

Part C: Consumer protection conditions

C1  Contract requirements

This condition aims to protect consumers and end-users by ensuring that contracts for a connection to a public electronic communications network or for public electronic communications services include minimum terms and information. It also sets out requirements about contract duration, end-of-contract notifications, annual best tariff information, facilitating changes of communications provider and end-users’ rights to terminate a contract, which are designed to ensure that end users are treated fairly and able to switch to a different provider in appropriate cases.

Scope

C1.1 The provisions of this Condition apply as follows:

(a) Conditions C1.2 to C1.9 apply to all providers of Public Electronic Communications Networks and/or Public Electronic Communications Services; and

(b) Conditions C1.10 to C1.21 apply to all providers of Public Electronic Communications Services, and each person to whom a provision applies is a ‘Regulated Provider’ for the purposes of that provision.

Contract requirements6

C1.2 Regulated Providers, when offering to provide, or providing, connection to a Public Electronic Communications Network and/or Public Electronic Communications Services to a Consumer or other End-User on request, must offer to enter into a contract or vary an existing contract with that Consumer, or other End-User, which specifies at least the following minimum requirements in a clear, comprehensive and easily accessible form:

(i) details of prices and tariffs, indicating the services provided and the content of each tariff element (with regard to charges for access, usage and/or maintenance), including details of any standard discounts applied, any special and targeted tariff schemes and any additional charges, the means by which up-to-date information on all applicable tariffs and maintenance charges may be obtained;

(j) payment methods offered and any difference in costs due to payment method;

(k) the duration of the contract, and the conditions for renewal and termination of services and of the contract, including:

(n) the type of action that might be taken by the Regulated Provider in reaction to security or integrity incidents or threats and vulnerabilities.

C1.3 Without prejudice to any Fixed Commitment Period, Regulated Providers shall ensure that conditions or procedures for contract termination do not act as disincentives for End-Users against changing their Communications Provider. In particular, but without limiting the extent of this paragraph, a Regulated Provider who is providing Public Electronic Communications Services to Domestic and Small Business Customers must not, at the end of any Fixed Commitment Period, renew those Domestic or Small Business Customers’ contracts for a further Fixed Commitment Period unless that Regulated Provider has first obtained Express Consent from each Customer concerned.
C1.4 Regulated Providers shall not include a term in any contract with a Consumer for the provision of Electronic Communications Services that stipulates a Fixed Commitment Period of more than 24 months in duration.

C1.5 Regulated Providers shall ensure that Subscribers are able to subscribe to a contract with a maximum duration of 12 months.

C1.6 Regulated Providers shall:

(a) give their Subscribers adequate notice not shorter than one month of any contractual modifications likely to be of material detriment to that Subscriber;

C1.8 For the purposes of Condition C1.7, an increase in the Core Subscription Price includes:

(a) any modification of any contractual term or condition providing for the Subscriber to pay the Regulated Provider which results in an increase to the Core Subscription Price;

(b) the exercise at the discretion of the Regulated Provider of any contractual term or condition which would have the effect of increasing the Core Subscription Price;

C1.9 The application of contract terms with the following effects does not fall within Condition C1.7:

(a) the effect of binding the Subscriber to pay a different Core Subscription Price at different times during their Fixed Commitment Period, where those terms were sufficiently prominent and transparent that the Subscriber can be said, at the time they agreed the Core Subscription Price, to have agreed to the different amounts they would have to pay at different times; and
(b) increases in the Core Subscription Price which are limited to the Regulated Provider passing on to the Subscriber an amount equal to any increase in the rate of Value Added Tax or any other directly and specifically applicable taxation charge or regulatory levy imposed by mandatory provisions laid down by Government or regulatory authorities, payment of which is compulsory.

(e) details of other contracts for Public Electronic Communications Services between the Regulated Provider and the Subscriber;

(f) how the Subscriber may terminate that contract;

(g) the current Core Subscription Price payable by the Subscriber under that contract;

At the same time, the Regulated Provider must give the Subscriber best tariff advice relating to their services.

C1.13 Regulated Providers must send an End-of-Contract Notification in a timely manner, before the end of the Subscriber’s Fixed Commitment Period.

C1.14 Regulated Providers must send an End-of-Contract Notification via a Durable Medium and in a prominent manner. If the Subscriber is a Consumer, the End-of-Contract Notification must also be separate and distinct from any other communication.

In addition, it aims to ensure that pricing and charges relating to premium rate services, non-geographic numbers and personal numbers are clear.
