Dear [<]

Freedom of Information: Right to know request

Thank you for your request for information regarding pirate radio stations broadcasting in the West Midlands County from January 2005 until November 2012. We received your request on 30 October 2012 and have considered it under the Freedom of Information Act 2000 ('the Act'). I have answered your questions in turn below.

The information on unlicensed broadcasting pre 2007 is held on Ofcom's archived system and is not readily accessible as a considerable amount of time would be needed to locate, retrieve, identify and extract any relevant information. Section 12 of the Act provides that a public authority is not obliged to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the "appropriate limit". The appropriate limit is set out in the Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations 2004, and is, for Ofcom, £450. That sum is intended to cover the estimated costs involved in determining whether Ofcom holds the information requested, identifying, locating, retrieving and extracting the information from any document containing it. The Regulations provide that costs are to be estimated at a rate of £25 per person per hour.

Ofcom estimates that it would take at least 18 hours to identify, locate and extract the information you require for this question and as such the cost of complying with your request will exceed the appropriate limit. We will therefore not be able to provide any information pre 2007.

Please list the names of all the unlicensed broadcast stations and the number of times enforcement action has been carried against each of them, clearly showing the method of enforcement used (i.e.: studio raid, main transmitter removal, mobile telephones disconnected, website domain name blocking etc).

4. How many enforcement visits have been as a result from information supplied from members of the public or licence paying broadcasters.

Reports/complaints from the public can determine the level of action that Ofcom takes. Although we cannot directly attribute each single report to an enforcement operation we can confirm the following number of complaints were received in the West Midlands as under:

2007	22
2008	46
2009	29
2010	18
2011	13
2012	2

5. Please supply a breakdown of costs for each case of enforcement action carried out.

This information is not readily accessible as a considerable amount of time would be needed to locate, retrieve, identify and extract any relevant information. Section 12 of the Act applies, as explained above.

6. Please give details of any complaints or allegations made against Ofcom's staff in the enforcement section.

We do not hold this information. We do not believe there were any complaints have been made against Ofcom staff post-2007

7. Out of the unlicensed broadcast stations identified, if any have not had enforcement action against them please supply information as to why it hasn't taken place.

We do not hold this information. We do not believe there were any complaints made against Ofcom staff post-2007

8. How many reports of interference to safety of life services or aviation have been reported in West Yorkshire between the dates stated above, if any please state which authority reported it and if the interference was proven to be attributed to pirate radio?
