1. Overview

You should complete this form if you are applying for a community digital sound programme licence (“C-DSP”). You can find further information about C-DSP services in the [guidance notes for licensees and applicants](#).

This application form is divided into two parts – **Part A** (which we will publish on our website) and **Part B** (which will be kept confidential). This document constitutes Part A; [Part B of the application form](#) is available on our website.

If you encounter any issues using these forms, please contact broadcast.licensing@ofcom.org.uk.

The purpose of this form

- 1.1 You should complete this form if you are applying for a Community Digital Sound Programme (C-DSP) licence.
- 1.2 A digital sound programme service intended for broadcast by means of a local or small-scale radio multiplex service requires either a C-DSP licence or a local DSP licence. Ofcom’s published guidance notes set out some of the key issues that potential applicants need to consider in deciding which type of licence is suitable for them. In summary, C-DSP services are not run for financial gain and are required to provide social gain. C-DSP licences therefore include strict conditions to ensure that happens, and provide less flexibility than a local DSP licence. However, they do provide access to capacity that small-scale radio multiplex service providers are required to reserve solely for C-DSP services.
- 1.3 A C-DSP licence will be required even if the same programme service is also provided on any other platforms (e.g. FM, satellite), as separate licences are required for those.
- 1.4 As noted above, small-scale radio multiplex services will have reserved capacity for C-DSP services. Issue of a C-DSP licence does not, however, guarantee carriage on a small-scale (or local) radio multiplex service. That is a matter for agreement between the C-DSP licensee and the multiplex service provider, and there may be more C-DSP licences issued in a locality than there are reserved slots on the small-scale radio multiplex service. Note that a C-DSP service does not necessarily have to broadcast using reserved capacity. It can use unreserved capacity on a small-scale radio multiplex service or capacity on a local radio multiplex service, again subject to agreement with the multiplex service provider.
- 1.5 An application for a C-DSP licence will be accepted only once Ofcom has advertised the licence for the small-scale radio multiplex service upon which the proposed C-DSP service is intended to be provided. There is no closing-date by which an application for a C-DSP licence must be submitted (i.e. it can be submitted at any time after the licence for the relevant small-scale radio multiplex licence has been advertised).
- 1.6 You can find further information about how to determine if a service requires a C-DSP licence in Section 2 of the [guidance notes for applicants and licensees](#).

Provision of information

- 1.7 Ofcom requires complete and accurate information to assess applications. This is so that we can assess your application against statutory criteria, consider whether those involved in the body applying for a licence are ‘fit and proper’ to hold a licence, and determine whether their involvement with other organisations disqualifies them from participation in a licence.
- 1.8 It is an offence under the Broadcasting Act 1996 (as amended) to provide false information or withhold relevant information during the application process, and may be grounds for revocation of a licence subsequently granted.

Publication of information about applications and licensed services

- 1.9 Information provided in **Part A** of the application form will be published by Ofcom following the submission of your application. Information provided in **Part B** will not be published.
- 1.10 In submitting this application you agree that, should a licence be granted, Ofcom may publish contact details for the licensee (specified in Section 2 of Part B of the application form), which may include personal data, on the Ofcom website and/or in other relevant publications. If you have any questions about the information that we publish, or there are any changes to this information, you should contact the Broadcast Licensing team by email (broadcast.licensing@ofcom.org.uk).
- 1.11 Ofcom considers issued C-DSP licences to be public documents and copies of licences will be made available to third parties on request albeit, other than the Key Commitments which are tailored to the service, C-DSP licences are standard form documents. A brief description of the licensed service will be published on the Ofcom website, along with the Key Commitments which form part of the licence.
- 1.12 Ofcom publishes a [monthly radio licensing update](#) which lists new services licensed, licences revoked, licence transfers, and changes to licensed services during the past month.

Data protection

- 1.13 We require the information requested in this form in order to carry out our licensing duties under the Broadcasting Act 1990, Broadcasting Act 1996 and Communications Act 2003. Please see Ofcom’s [General Privacy Statement](#) for further information about how Ofcom handles your personal information and your corresponding rights.

Keeping up to date with broadcasting matters

- 1.14 We strongly recommend that the appropriate person at the applicant body signs up to receive Ofcom’s regular email updates on broadcasting matters including notification when the Broadcast and On Demand Bulletin is published.

- 1.15 To sign up to receive these communications, you must visit [the email updates area of our website](#) and select 'Broadcasting.'

3. The proposed service

About this section

This section asks you to describe your proposed service, including the Key Commitments you propose to include in your licence. This includes your service name, multiplex name and character of service, in addition to standard commitments that all C-DSP licensees need to abide by. If a licence is granted, the information you provide in this section will be used to form the basis of the annex to your licence. You will only be authorised to broadcast what is detailed in the annex of the licence.

In this section, you will also need to set out how your service will provide social gain, community participation and how you will be accountable to the target community. This is in line with statutory requirements for the granting of C-DSP licences.

If you hold, or intend to hold, multiple C-DSP licences, the answers given in this section and the intended delivery of your Key Commitments must apply to the locality in which your proposed service will broadcast (as set out in the Draft Key Commitments in this application form).

Your proposed service and target community

3.1 What is the proposed service name?

Memory Lane Radio

3.2 On which radio multiplex service do you intend to broadcast? If the relevant radio multiplex licence has not yet been awarded, please state the name of the area that the multiplex service is intended to cover, as defined in the multiplex licence advertisement.

Muxone Ltd (Tynemouth & South Shields)

3.3 Where is your proposed studio located? Please note that this must be located within the coverage area of the small-scale radio multiplex service identified in answer to 5.2 (or the advertised area for a small-scale radio multiplex service that has not yet been awarded).³

³ If you propose to provide your service on a local, rather than a small-scale, radio multiplex service, there is no requirement for your studio to be located within the licensed area of that local radio multiplex service.

Pride Media Centre
Unit T1 Stonehills
Shields Road
Gateshead
England
NE10 0HW

- 3.4 If the proposed service is a simulcast of an existing licensed radio service, please list that below and provide the licence number.

- 3.5 What is the target community of the service? Please include the geographical area that you wish to serve in addition to the interests or characteristics that define your target community. The area you wish to serve must be geographically located within the coverage area of the radio multiplex service on which you intend to broadcast. **Answer in fewer than 400 words.**

Our target audience is predominantly the older listener, including those living with dementia - a section of the community we believe has been forgotten about.

We play music from the 1950's and include specialist programmes covering Big Band – Country – Classical, we even have regular fitness features in our 'Chairobics' section.

So, from The Beatles to Bros, Sinatra to Sinita, Memory Lane Radio will bring the memories back.

- 3.6 How will you ensure that your proposed C-DSP service is run on a not-for-profit basis? Please give details of specific measures or arrangements in place to ensure this, and how any profit will be wholly and exclusively used for securing or improving the future provision of the service, or for the delivery of social gain. **Answer in fewer than 400 words.**

As there are only two partners, Paul Wappat and David Newbery there will be no problems or complications in ensuring any profits are invested back into the station. Buying new equipment to make us more versatile. Added to this we are a registered CIC with Companies House. We also employ an external accountant.

Social gain

- 3.7 What community benefits will your service bring to your target community(ies) and, if applicable, the general public. Please include summaries of evidence to support your answer, including details about other organisations you intend to work with. **Answer in fewer than 500 words. Please do not provide names of individuals in your answer.**

Main benefits are by playing the music you simply don't hear on mainstream radio stations. The classic crooners, Soul, Easy Listening – we also plan to increase speech content by recording listeners memories, whether that be their first job, their wedding day etc.

We also trialed our output in a nursing home in the North East for a few months and the feedback was incredible. Staff reporting residents singing along to the music in the day-room/dining room. One lady who had become socially withdrawn started tapping her feet and clapping her hands, to quote a member of staff 'It helped her to recall and to re-engage'

Added to this, we produced special programmes for another care home, broadcasting a Christmas Day Request Show for residents who were unable to see family members due to Covid 19 lockdown restrictions.

In 2020 we partnered with Age UK (North Tyneside) to produce their weekly 'Singalong Memories' project, a choir of 50 clients who are no longer able to meet in person because of Covid 19, so we play their songs and they singalong at home.

- 3.8 Please summarise how your service will facilitate discussion and the expression of opinion. Answer in fewer than 200 words.

We are mainly music-based, but during live programming we do have discussion topics, local history, reminiscence, anecdotal stories, which all have interactive input via social media, phone, email etc. We also take news on the hour from Newshub and occasionally run suitable pre-recorded features from 'Marketiers'.

- 3.9 How will you ensure that members of your target community(ies) can gain access to the facilities used to provide your service, and receive training in using these? In particular, please set out how this will be done practically, formally and/or informally. Answer in fewer than 400 words.

It is part of our future planning to increase speech content using general interested listeners and residents of care home to either have stories and features recorded onsite, or to get them to visit our studio to record their material and train them how to plan – record – edit their packages ready for TX.

- 3.10 How will your service provide better understanding of your target community and the strengthening of links within it? Answer in fewer than 200 words.

We have already worked with two care homes in the North East on special projects with very positive results and feedback. We are also in discussion with AnchorHanover, one of the UK's largest providers of care homes and sheltered housing about possibly working together and having their properties streaming our service.

- 3.11 Please summarise the relevant experience of the group or its members in activities related to the provision of social gain or other relevant non-broadcast areas (such as third sector, training or education). **Answer in fewer than 200 words.**

We would also like to work with local care homes/nursing homes with the intention of visiting some properties with a Memory Lane Radio Roadshow. Playing the nostalgic music listeners love and presenting a vintage photograph/video of the area they're in.

Participation

- 3.12 How do you propose to ensure that members of your target community(ies) are given opportunities to participate in the operation and management of the service? **Answer in fewer than 400 words.**

We would welcome individuals and groups from the community to be trained in all aspects of radio production, from programme ideas/planning/scripting/recording/editing to presentation. Full training would be given in all fields.

Accountability

- 3.13 How will members of your target community contact your service and influence its operation? **Answer in fewer than 300 words.**

Contact from the community would be encouraged at all times, we openly request feedback/ideas. This would be done through our website www.memorylaneradio.co.uk where all methods of contact (email – Landline and Mobile) are available.

Regular contact with relevant charities and group throughout the area keeps us in touch with the community's needs and interests.

- 3.14 How will suggestions and/or criticisms from members of your target community(ies) be considered and acted upon? **Answer in fewer than 300 words.**

All suggestions and possible criticisms would be welcomed at all times and will be constructively considered with personal response to each individual.
