Questions 1: *Do you have any comments on Ofcom's proposal to grant the variation request?*

FMS Solutions Ltd. supports Ofcom's proposal to grant the variation request.

Question 2: *Do you have any comments on Ofcom's proposal to recommend the development of a new or revised coordination process?*

FMS Solutions Ltd. supports Ofcom's proposal to develop a new or revised coordination process.

The development of the existing ECoP was made particularly difficult by Ofcom's requirement for unanimity. Ultimately this was not possible and Ofcom accepted a single dissention.

With many silent licence holders it may be difficult to obtain unanimity so FMS Solutions recommends that Ofcom considers a majority vote acceptance level.
