About this data: Fixed coverage, Parliamentary Constituency area

To create our <u>Connected Nations: Spring 2023 update</u>, Ofcom collected and analysed data from over 70 fixed network and fixed wireless access (FWA) providers. This file provides information on fixed broadband coverage and broadband availability from FWA at parliamentary constituency level.

The coverage availability was collected as a snapshot in January 2023. <u>Our methodology</u> provides details of our approach to collecting and analysing coverage data.

Gigabit-capable coverage was introduced in the Connected Nations 2020 report and includes all coverage from full fibre networks and upgraded cable networks that are capable of delivering download speeds of 1 Gbit/s or higher.

If you have any questions or feedback on the data, please contact us at open.data@ofcom.org.uk.

We are providing this data on an open basis via the <u>Open Government Licence</u>, which gives users various freedoms about how they choose to use the data, subject to conditions.

The files are provided as a Comma Separated Values file, with double quote (") text delimiters where applicable.

Coverage availability

Coverage availability for all premises

File name: 202301_fixed_pcon_coverage_r01.csv

Total records in file: 1 header row, 650 data rows

File size: 130 KB

Coverage availability for residential premises

File name: 202301_fixed_pcon_res_coverage_r01.csv

Total records in file: 1 header row, 650 data rows

File size: 129 KB

Column headers and what they represent:

Current headers	Note
parl_const	Parliamentary Constituency Code, such as E14000530
parliamentary_constituency_name	Parliamentary Constituency Name
All Premises	Count of all premises, in scope, based on Ordnance Survey AddressBase® Premium Epoch 98
All Matched Premises	Count of all premises matched to operator records with a non-zero recorded coverage. Unmatched premises are unclassified
SFBB availability (% premises)	Percentage of premises that have Superfast Broadband (30Mbit/s or greater) coverage from fixed broadband
UFBB (100Mbit/s) availability (% premises)	Percentage of premises that have Ultrafast Broadband (100Mbit/s or greater) coverage from fixed broadband
UFBB availability (% premises)	Percentage of premises that have Ultrafast Broadband (300Mbit/s or greater) coverage from fixed broadband
Full Fibre availability (% premises)	Percentage of premises that have coverage from a Full Fibre service from fixed broadband
Gigabit availability (% premises)	Percentage of premises that have Gigabit capable services from fixed broadband
