

**What do you want Ofcom to keep confidential?:**

Keep name confidential

**If you want part of your response kept confidential, which parts?:**

**Ofcom may publish a response summary:**

Yes

**I confirm that I have read the declaration:**

Yes

**Ofcom should only publish this response after the consultation has ended:**

You may publish my response on receipt

**Additional comments:**

Having spent the time to participate in the "consultation" I expect my response published in full as promptly as any other respondent.

**Question 1: Do you agree that copy management would broaden the range of HD content available on DTT and help secure its long term viability as a platform? :**

No

**Question 2: Do you agree that the BBC's proposed multiplex licence amendment represents the most appropriate means for securing an effective content management system on HD DTT? :**

No

**Question 3: Do you agree with the proposed change to Condition 6 in the Multiplex B Licence? :**

No

**Question 4: Do you agree that Multiplexes C and D should be granted a similar amendment to their Licences as Multiplex B?. :**

No

**Question 5: Do you agree that the BBC's proposed approach for implementing content management would safeguard citizens and consumers**

**legitimate use of HD content, and if not, what additional guarantees would be appropriate? :**

Absolutely NOT. It is simply yet another power play and money grabbing exercise by an outdated over-funded mismanaged bunch of sky-watching morons interested solely in lining their own pockets.

**Question 6: Do you agree that the BBC?s proposed choice of content management technologies will have only a negligible impact on the cost of HD DTT receivers and their interoperability with other HD consumer equipment? . :**

Only yet another moron, one closely affiliated with the BBC morons, would state this question in this way, so obviously playing down the enormous total cost involved. Better would be "Do you think it is fair that the British public are forced YET AGAIN to replace their equipment so the self serving BBC, \*funded by you\*, can use YOUR licence fee to further line their pockets AND at the same time TELL YOU what you can watch, when you can watch it and what devices you can watch it (in the latter case that would exclude any devices that don't begin with "i" or "MS").

**Question 7: Do stakeholders agree that the BBC?s proposed Huffman Code licensing arrangements would have a negligible effect on the market for HD DTT receivers? :**

Yeah right. Are you lot at Ofcom for real? Seriously! "Huffman Code" and some vague reference to a "licensing arrangement" is really encouraging public consultation... NOT. You should be ashamed of your blatant and obvious lack of impartiality in this so called "consultation", more like "insultation"!

**Question 8: Do the BBC?s proposed content management states and their permitted use for different categories of HD content meet the requirements of other HD broadcasters on DTT? . :**

How the fook would Joe Public know!?!?

**Question 9: Are there any issues that you consider Ofcom should take into account in assessing the BBC?s proposal, that have not been addressed by this consultation?:**

Yeah, the fact that you have already decided to go along with whatever SELF SERVING scheme the BBC throws at you. Hmmm, one wonders why?
