Additional comments:

For consistency, full dialling codes should be used over the whole of the UK. This should have been introduced years ago. Mobile telephony is now so widespread the majority of subscribers are used to it anyway.

Question 1: Do you agree with our proposals that local dialling should be closed in the Five Area Codes - Aberdeen (01224), Bradford (01274), Brighton (01273), Middlesbrough (01642) and Milton Keynes (01908) - on 1 October 2014?:

No. It should be the whole of the UK.

Question 2: Are you aware of any local or national events that may dilute consumer awareness communications/any other factors suggesting that 1 October 2014 is an unsuitable date/time of year to introduce the proposed changes to local dialling?:

No.

Question 3: Do you have any comments on the proposed modifications to the Numbering Plan set out at Annex 4 and/or on our view as to how the proposed modification meets the relevant legal tests in section 60(2) of the Act?:

No.
