

## Average download speed by operator

Source: Epiteiro measurement data for all dedicated probes between 22<sup>nd</sup> September 2010 and 19<sup>th</sup> December 2010 for UK mobile operators '3', O2, Orange, T-Mobile and Vodafone.

Notes: (1) Data is based on 3G or HSPA bearer connection at time of test; (2) 2G data is excluded; (3) Sample size of 436 static probes (running in total 175,204 download speed tests); (4) The range shown represents a 95% confidence interval around the mean; (5) Higher speeds indicate better performance.
