The holder of an analogue local commercial radio licence may apply to Ofcom to have the station's Format amended. Any application should be made using the layout shown on this form, and should be in accordance with Ofcom's published procedures for Format changes.<sup>1</sup>

Under section 106(1A) of the Broadcasting Act 1990 (as amended), Ofcom may consent to a change of a Format only if it is satisfied that *at least* one of the following five statutory criteria is satisfied:

- (a) *that the departure would not substantially alter the character of the service;*
- (b) *that the departure would not narrow the range of programmes available by way of relevant independent radio services to persons living the area or locality for which the service is licensed to be provided;*

<sup>1</sup> Available at [https://www.ofcom.org.uk/data/assets/pdf\\_file/0024/87405/The-regulation-of-Format-changes.pdf](https://www.ofcom.org.uk/data/assets/pdf_file/0024/87405/The-regulation-of-Format-changes.pdf)

- (c) *that the departure would be conducive to the maintenance or promotion of fair and effective competition*
- (d) *that there is evidence that, amongst persons living in that area or locality, there is a significant demand for, or significant support for, the change that would result from the departure; or*
- (e) *that (i) the departure would result from programmes included in the licensed service ceasing to be made at premises in the area or locality for which the service is provided, but (ii) those programmes would continue to be made wholly or partly at premises within the approved area (as defined in section 314 of the Communications Act 2003 (local content and character of services)).*

Only one of these five criteria need be satisfied in order for Ofcom to consent to the proposed change. However, even if Ofcom is of the opinion that the proposed change satisfies one or more of the statutory criteria, there may be reasons (depending on the particular circumstances of the case) why Ofcom may not consent to the proposed change. The additional criteria to which Ofcom will have regard when exercising this discretion can be found on our website.<sup>2</sup>

Applicants should note that, under section 106ZA of the same Act (as amended), a proposed change that *does not* satisfy the first or last of these criteria (i.e. a change that Ofcom considers *would* or *could* substantially alter the character of the service, or does not relate to the origin of locally-made programmes) must, if it is to be considered further under any of the other three criteria, be consulted upon.

In the event that Ofcom receives a request for Format change and considers that criterion (a) or (e) is *not* satisfied, it will seek confirmation from the applicant as to whether it wishes to proceed with the request (and, if so, whether it wishes to amend or replace its submission in light of the necessity to make it public).#

**Please set out the statutory criterion, or criteria, set out in section 106(1A) of the Broadcasting Act 1990 that you believe is/are satisfied in relation to this Format change request, and the reasons for this.**

*(a) that the departure would not substantially alter the character of the service*

and

*(e) that (i) the departure would result from programmes included in the licensed service ceasing to be made at premises in the area or locality for which the service is provided, but (ii) those programmes would continue to be made wholly or partly at premises within the approved area (as defined in section 314 of the Communications Act 2003 (local content and character of services)).*

**Please provide any additional information and/or evidence in support of the proposed change(s) below. In particular, the applicant may wish to outline how they see that the proposed change fits within Ofcom’s published Format change request policy<sup>3</sup> and also Ofcom’s Localness guidance, which includes our co-location and programme sharing policy.<sup>4</sup>**

#### Proposed changes to the Character of Service

The proposed changes to the Character of Service would make the Character of Service for the 3 licences making up 2BR consistent and are being requested to facilitate the rebranding of the station to become part of Global’s Capital network of local stations.

The proposed change to the Character of Service in respect of local content, ensuring the station remains “locally oriented” in place of the current wording requiring that the station feature “local news, information and community-oriented programming” reflects the proposal to take advantage of the Enhanced Local News option in Ofcom’s Localness Guidance. Ofcom’s own research, as published as part of the recent consultation on the Guidance, clearly shows that local news and information is the most valued aspect of localness amongst listeners. The commitment to at least hourly local news bulletins throughout weekday daytime enshrined in the proposed new format will ensure that the local nature of the licence is maintained.

The proposed format will increase the station’s formal commitment to local news and therefore the proposed changes to the character of service are not substantial.

#### Proposed Changes to Programme Sharing, Co-location and Locally-made hours

These changes are consistent with Ofcom’s latest published localness guidelines, which require a minimum of 3 hours per weekday of locally-produced programming for stations providing enhanced local news, and with Ofcom’s general policy to permit a station to share its locally-made programmes with any other station in its approved area.

Locally-made programming will continue to be produced in an area approved by Ofcom.

#### **Notes**

# Ofcom may approve a change under any of criteria (b) to (d) without consultation, or after a consultation of less than 28 days, if Ofcom considers that to hold a consultation at all, or for 28 days or more, would result in a delay that would be likely to prejudice the interests of the licensee. Ofcom may also remove for the purposes of consultation any confidential information submitted by the licensee.

# Ofcom notes on the request

## Statutory requirements

This request relates to the FM licence for Preston, Leyland & Chorley held by the Lancashire Broadcasting Company Limited, currently broadcasting as '2BR'. In July 2018, Lancashire Broadcasting – formerly part of the UKRD Group – was purchased by Global Radio.

Every FM local commercial radio service is required to broadcast a certain amount of locally-made programming, which is specified in its Format. Locally-made programmes are those made within a station's licensed area or, where Ofcom has approved a wider area relating to that station, that 'approved area.'

Following changes to Ofcom's localness guidelines published in October 2018, and as part of Global Radio's plans to rebrand 2BR and integrate it into its 'Capital' network of stations, the licensee has requested the following changes to the Format of the Preston licence:

- To change the 'Character of Service', as set out in the application form above.
- To reduce the required number of locally-made programming hours on weekday daytimes from seven to three, and from four to none on weekend days.
- To broadcast the locally-made programming hours from anywhere within the approved area of North West England.
- To share local programming hours with the FM licences for Liverpool and Manchester (in addition to the programming sharing permissions the Preston licence already has with the Burnley and Blackburn licences).

These proposed changes would change the character of service as set out in the Format of the licence, and accordingly can be agreed only if Ofcom is satisfied in regard to one of the statutory criteria set out in section 106(1A) of the Broadcasting Act 1990 (as set out in the request, above).

If we are satisfied in relation to one of the statutory criteria, we are then able to decide whether or not to approve the request, taking account of our published policy criteria.

## Assessment

### Proposed change to 'character of service'

With the regard to the proposed changes to the 'Character of Service', we were satisfied in relation to section 106(1A)(a) of the Broadcasting Act 1990 on the basis that this licence would continue to be a mainstream music station with an obligation to provide local news and information for Preston, Leyland and Chorley in a manner that is consistent with Ofcom's published localness guidelines.

### Proposed changes to locally-made hours, programme sharing and co-location arrangements

With regard to the request to broadcast locally-made programming hours from anywhere within the approved area of North West, Ofcom was satisfied in relation to section 106(1A)(e), on the basis that the change requested, if approved, would result in programmes included in the licensed service being made at premises with the North West of England approved area.

In considering the requests concerning locally-made hours and local news provision, we were satisfied in relation to section 106(1A)(a) of the Broadcasting Act 1990 – that the reduction in the number of locally-made hours would not substantially alter the character of the service. This is because the proposed new amount of locally-made programming and the associated commitment to deliver local news at least hourly throughout weekday daytime hours is consistent with our recently amended localness guidelines<sup>5</sup>, and in addition because we would continue to expect the licensee to provide a local service that includes, as well as the level of news specified in its Format, sufficient other local material to deliver the character of service, regardless of where the content is being broadcast from.

We were also satisfied in relation to section 106(1A)(a) of the Broadcasting Act 1990 with regard to the request to share all local programming hours with the Manchester and Liverpool licences, in addition to the Blackburn and Burnley licences. Again, this request is consistent with our localness guidelines, and we would continue to expect the licensee to provide a local service that includes sufficient local material to deliver the required character of service.

As a matter of general policy<sup>6</sup>, we are minded to approve Format change requests relating to locally-made programming and programme sharing where all the stations involved are located within the same approved area, provided we are satisfied that the stations involved will continue to meet their licence obligations to provide local material relevant to the listeners in their individual licence areas. On the basis that Global Radio is a substantial operator with significant resources, we have no reason to consider that Global Radio would not be able to deliver the localness obligations specified in these licences.

## Decision

Ofcom decided to approve this Format change request from Lancashire Broadcasting Limited because we were satisfied in relation to two of the relevant statutory criteria, and for the policy reason outlined above.
