The Office of Communications (“OFCOM”) make the following Regulations in exercise of the powers conferred by sections 12, 13(2) and 122(7) of the Wireless Telegraphy Act 2006 (“the Act”).

Before making these Regulations OFCOM have given notice of their proposal to do so in accordance with section 122(4)(a) of the Act, published notice of their proposal in accordance with section 122(4)(b) of the Act, and have considered the representations made to them before the time specified in the notice in accordance with section 122(4)(c) of the Act.

SCHEDULES

SCHEDULE 1 Revocations
SCHEDULE 2 Licence Charges and Payment Intervals
SCHEDULE 3 Formula for Calculating the Appropriate Sum for the Point to Point Fixed Links Licence

. Part 1 Formula
. Part 2 Band Factor
. Part 3 Path Length Factor
. Part 4 Minimum Path Length
. Part 5 Availability Factor
SCHEDULE 4 Fees Payable for Satellite (Permanent Earth Station) and (Transportable Earth Station) Licences

. Part 1 Formula for Calculating the Appropriate Sum for a Satellite (Permanent Earth Station) Licence

. Part 2 Band Factor for Calculating the Appropriate Sum for a Satellite (Permanent Earth Station) Licence

. Part 3 Fees Payable for Satellite (Transportable Earth Station) Licences

SCHEDULE 5 High Population Areas, Medium Population Areas and Low Population Areas

SCHEDULE 6 Charges for the Business Radio (Area Defined) Licence Class for Each 6.25 kHz Channel

SCHEDULE 7 Charges for the Business Radio (Technically Assigned) Licence Class

. Part 1 Charges for Each 6.25 kHz Channel Authorised in a High Usage Band

. Part 2 Charges for Each 6.25 kHz Channel Authorised in a Medium Usage Band

. Part 3 Charges for Each 6.25 kHz Channel Authorised in a Low Usage Band

SCHEDULE 8 Heavy Congestion Areas, Medium Congestion Areas, Light Congestion Areas and Non-congestion Areas

SCHEDULE 9 Charges for the Coastal Station Radio (International) Licence Class for International Maritime Channels 9 (156.450 MHz), 11 (156.550 MHz), 12 (156.600 MHz), 14 (156.700 MHz), 68 (156.425 MHz), 69 (156.475 MHz), 71 (156.575 MHz) and 74 (156.725 MHz) for Each 6.25 kHz Channel

SCHEDULE 10 Charges for the Coastal Station Radio (International) Area Defined Licence Class for International Maritime Channels 9 (156.450 MHz), 11 (156.550 MHz), 12 (156.600 MHz), 14 (156.700 MHz), 68 (156.425 MHz), 69 (156.475 MHz), 71 (156.575 MHz) and 74 (156.725 MHz) for Each 6.25 kHz Channel

SCHEDULE 11 Charges for the Coastal Station Radio (International) Area Defined Licence Class for International Maritime Channels 87 (157.375 MHz) and 88 (157.425 MHz) for Each 6.25 kHz Channel

SCHEDULE 12 Charges for the Coastal Station Radio (International) Area Defined Licence Class for International Maritime Channels Other than Channels 9 (156.450 MHz), 11 (156.550 MHz), 12 (156.600 MHz), 14 (156.700 MHz), 68 (156.425 MHz), 69 (156.475 MHz), 71 (156.575 MHz), 74 (156.725 MHz), 87 (157.375 MHz) and 88 (157.425 MHz) for Each 2 x 25 kHz Channel

SCHEDULE 13 Charges for the Coastal Station Radio (UK) Licence Class for Each 6.25 kHz Channel

SCHEDULE 14 Charges for the Coastal Station Radio (UK) Area Defined Licence Class for Each 6.25 kHz Channel

SCHEDULE 15 Formulae for Aeronautical Stations

. Part 1 Formula for Calculating the Appropriate Sum for a Licence for an Area Service

. Part 2 Formula for Calculating the Appropriate Sum for a Licence for an Aeronautical Broadcast Service

. Part 3 Formula for Calculating the Appropriate Sum for a Licence for a Circular Service
EXPLANATORY NOTE

1 Citation and commencement

These Regulations may be cited as the Wireless Telegraphy (Licence Charges) Regulations 2020 and shall come into force on [   ] 2020.

2 Interpretation

(1) In these Regulations—

“the 2000 Regulations” means the Wireless Telegraphy (Broadband Fixed Access Licences) Regulations 2000;

“the 2012 2004 Regulations” means the Wireless Telegraphy (Spectrum Trading) Regulations 2012 2004;

“the Act” means the Wireless Telegraphy Act 2006;

“apparatus” means apparatus for wireless telegraphy;

“Band I” means the band 55.750—68.00 MHz, with the exception of the sub-bands 60.750—62.750 MHz and 67.750—67.8375 MHz;

“base station” means a station which facilitates or controls communications between a mobile station and—

(a) itself;
(b) another mobile station;
(c) a fixed mobile station; or
(d) any electronic communications network;

“channel” means a part of the electromagnetic spectrum intended to be used for a transmission of signals and defined by—

(a) two specified frequency limits;
(b) its centre frequency and the associated bandwidth; or
(c) an indication equivalent to (a) or (b);

“co-channel” means apparatus operating in an identical frequency or channel;

“core London area” means the area within a circle which has a 22 kilometre radius from Charing Cross, London which is located at grid square reference TQ 302 805;
“cross-polar” means the use of orthogonal polarisation to permit the re-use of identical frequencies or channels in the same area;

“earth station” means a radio station situated either on the earth’s surface or within the earth’s atmosphere and is intended for communication with one or more—

(a) radio stations which are situated beyond, or are intended to be situated beyond, the earth’s atmosphere; or
(b) radio stations of the same kind by means of one or more reflecting satellites or other objects in space;

“erp” means effective radiated power of transmission;

“exclusive basis” means authorised use of a channel which is not shared with any other licensee;

“fixed link” means a connection by wireless telegraphy designed for use between two fixed points;

“fixed mobile station” means a control point configured to operate in the manner of a mobile station;

“grid square” means a National Grid square of the 2nd series of Landranger maps published by the Ordnance Survey;

“heavy congestion area” means such part of the British Islands being in an area listed in Schedule 8 and identified by reference to a grid square which is considered by OFCOM to have a heavily congested use of the electromagnetic spectrum for a specified class of licence;

“high population area” means such part of the British Islands being in an area listed in Schedule 5 and identified by reference to a grid square which is considered by OFCOM to have a high proportion of the population;

“high usage bands” mean either of UHF Band I and II and the VHF High Band;

“hub” means a single fixed site connected to more than one fixed station via wireless telegraphy links operating in the same frequency bands;

“large coverage area” means—

(a) in relation to a Coastal Station Radio (International) licence an area within which wireless telegraphy is authorised under a licence condition permitting one or more of—

(i) erp greater than or equal to 24 Watts where antenna height is greater than or equal to 10 metres above mean sea level;
(ii) erp greater than or equal to 10 Watts where antenna height is greater than or equal to 20 metres above mean sea level;
(iii) erp greater than or equal to 5 Watts where antenna height is greater than or equal to 30 metres above mean sea level;
(b) in relation to a Coastal Station Radio (UK) licence an area within which wireless telegraphy is authorised under a licence condition permitting—
   (i) erp greater than 5 Watts where antenna height is greater than 10 metres above ground level; or
   (ii) erp less than or equal to 5 Watts where antenna height is greater than 30 metres above ground level; and

(c) in relation to any other licence an area within which wireless telegraphy is authorised under a licence condition permitting one or more of—
   (i) erp greater than 5 Watts where antenna height is greater than 10 metres above ground level;
   (ii) erp less than or equal to 5 Watts where antenna height is greater than 30 metres above ground level;
   (iii) transmission within a circular area which has a radius greater than 15 kilometres but less than or equal to 30 kilometres;

“licence” means a wireless telegraphy licence;

“light congestion area” means such part of the British Islands being in an area listed in Schedule 8 and identified by reference to a grid square which is considered by OFCOM to have a lightly congested use of the electromagnetic spectrum for a specified class of licence;

“low population area” means such part of the British Islands being an area listed in Schedule 5 and identified by reference to a grid square which is considered by OFCOM to have a low proportion of the population;

“low usage bands” mean the band 133 kHz—147 kHz, the 26.225 MHz band, the 49.49375 MHz band, VHF Band I and the VHF Low Band;

“medium congestion area” means such part of the British Islands being in an area listed in Schedule 8 and identified by reference to a grid square which is considered by OFCOM to have a medium level of congested use of the electromagnetic spectrum for a specified class of licence;

“medium coverage area” means—

(a) in relation to a Coastal Station Radio (International) licence an area within which wireless telegraphy is authorised under a licence condition permitting one or more of—
   (i) erp greater than 10 Watts where antenna height is less than 10 metres above mean sea level;
   (ii) erp greater than 7 Watts but less than 24 Watts where antenna height is greater than 5 metres above mean sea level but less than 20 metres above mean sea level;
   (iii) erp greater than 3 Watts but less than 10 Watts where antenna height is greater than 10 metres above mean sea level but less than 30 metres above mean sea level;
   (iv) erp greater than 1.5 Watts but less than 5 Watts where antenna height is greater than 20 metres above mean sea level;
(v) erp less than 5 Watts where antenna height is greater than 30 metres above mean sea level;

(b) in relation to a Coastal Station Radio (UK) licence an area within which wireless telegraphy is authorised under a licence condition permitting—

   (i) erp less than or equal to 5 Watts where antenna height is greater than 10 metres above ground level and less than or equal to 30 metres above ground level; or

   (ii) erp greater than 5 Watts where antenna height is less than or equal to 10 metres above ground level; and

(c) in relation to any other licence an area within which wireless telegraphy is authorised under a licence condition permitting one or more of—

   (i) erp less than or equal to 5 Watts where antenna height is greater than 10 metres above ground level and less than or equal to 30 metres above ground level;

   (ii) erp greater than 5 Watts where antenna height is less than or equal to 10 metres above ground level;

   (iii) transmission within a circular area which has a radius greater than 3 kilometres but less than or equal to 15 kilometres;

“medium frequency” means that part of the electromagnetic spectrum between 531 kHz and 1602 kHz;

“medium population area” means such part of the British Islands being an area listed in Schedule 5 and identified by reference to a grid square which is considered by OFCOM to have a medium proportion of the population;

“medium usage bands” mean VHF Band III and the VHF Mid Band;

“medium wave broadcasting band” means that part of the electromagnetic spectrum between 526.5 kHz and 1606.5 kHz;

“mobile station” means a station (other than a base station) intended to be used while in motion or during halts at unspecified points;

“national channel” means a channel which the licensee is authorised to use throughout the United Kingdom;

“non-congestion area” means such part of the British Islands being in an area listed in Schedule 8 and identified by reference to a grid square which is considered by OFCOM not to have a congested use of the electromagnetic spectrum for a specified class of licence;

“OFCOM” means the Office of Communications;

“outer London area” means all of the area, other than the core London area, which is within a circle having a 112 kilometre radius from Charing Cross, London which is located at grid square reference TQ 302 805;
“prescribed payment interval” has the meaning given by regulation 4(1);

“prescribed sum” means a fixed sum and/or a variable sum which is payable to OFCOM under regulation 4(1)(c) and/or (d);

“prescribed time” means the time when a sum is payable to OFCOM under regulation 4(1);

“shared basis” means authorised use of a channel which is shared with another licensee;

“slot” means the smallest unit of the electromagnetic spectrum used in the construction of a frequency plan, such that all bands, sub-bands, blocks and channels which are used in such plan are integer multiples of the slot size;

“small coverage area” means—

(a) in relation to a Coastal Station Radio (International) licence an area within which wireless telegraphy is authorised under a licence condition permitting one or more of—
   (i) erp less than or equal to 10 Watts where antenna height is less than or equal to 5 metres above mean sea level;
   (ii) erp less than or equal to 7 Watts where antenna height is less than or equal to 10 metres above mean sea level;
   (iii) erp less than or equal to 3 Watts where antenna height is less than or equal to 20 metres above mean sea level;
   (iv) erp less than or equal to 1.5 Watts where antenna height is less than or equal to 30 metres above mean sea level;

(b) in relation to a Coastal Station Radio (UK) licence an area within which wireless telegraphy is authorised under a licence condition permitting erp less than or equal to 5 Watts where antenna height is less than or equal to 10 metres above ground level; and

(c) in relation to any other licence an area within which wireless telegraphy is authorised under a licence condition permitting one or more of—
   (i) erp less than or equal to 5 Watts where antenna height is less than or equal to 10 metres above ground level;
   (ii) transmission within a circular area which has a radius less than or equal to 3 kilometres;

“station” means a station for wireless telegraphy;

“UHF Band I and II” means that part of the electromagnetic spectrum between 410 MHz and 470 MHz;

“VHF Band I” means that part of the electromagnetic spectrum between 55.75 MHz and 68.0 MHz;

“VHF Band III” means that part of the electromagnetic spectrum between 177.20625 MHz and 207.49375 MHz;
“VHF broadcasting band” means that part of the electromagnetic spectrum between 87.5 MHz and 108.0 MHz;

“VHF High Band” means that part of the electromagnetic spectrum between 165.04375 MHz and 173.09375 MHz;

“VHF Low Band” means that part of the electromagnetic spectrum between 68.08125 MHz and 87.49375 MHz; and

“VHF Mid Band” means that part of the electromagnetic spectrum between 137.96250 MHz and 165.04375 MHz.

(2) Where these Regulations provide for the prescribed sum to be calculated by reference to a number of any of the following things—

(a) base stations;
(b) channels;
(c) congestion areas;
(d) fixed links;
(e) grid squares;
(f) mobile stations;
(g) national channels;
(h) population;
(i) regional channels;
(j) slots;
(k) stations,

the number shall be taken to be the number the use of which is authorised by the licence at the prescribed time.

(3) In relation to a Transmission of National and Local Radio Broadcasting Services licence and a Community Radio licence, a reference to the licensee’s coverage is a reference to the total population covered by the transmitters which the licensee is authorised to use in the medium wave broadcasting band or the VHF broadcasting band (as the case may be) as specified in the licence granted to the licensee, and “covered” shall be construed accordingly.

(4) In relation to a Coastal Station Radio (International) licence, a Coastal Station Radio (UK) licence, a Coastal Station Radio (International) Area Defined licence and a Coastal Station Radio (UK) Area Defined licence—

(a) “excluded channels” means—

(i) channels 0 (156.000 MHz), 00 (160.600 MHz), 10 (156.500 MHz), 67 (156.375 MHz) and 73 (156.675 MHz) and the channel on 161.225 MHz, when used solely to assist Her Majesty’s Coastguard, and when used solely to assist the Secretary of State with oil pollution control activities; and
(ii) channels 6 (156.300 MHz), 8 (156.400 MHz), 13 (156.650 MHz), 15 (156.750 MHz), 16 (156.800 MHz), 17 (156.850 MHz), 23 (157.150 and 161.750 MHz), 70 (156.525 MHz), 72 (156.625 MHz), 75 (156.775 MHz), 76 (156.825 MHz), 77 (156.875 MHz), 84 (157.225 and 161.825 MHz) and 86 (157.325 and 161.925 MHz); and

(b) a reference to an international maritime channel means a channel specified in the table in Appendix 18 to the 2008 edition of the Radio Regulations.

(5) In relation to a Programme Making and Special Events Fixed Site licence, a Programme Making and Special Events Link licence, a Programme Making and Special Events Low Power licence, a UK Wireless Microphone (Annual) licence and a UK Wireless Microphone (Biennial) licence—

(a) “area” in relation to a channel specified in such a licence refers to an area with a population coverage below three million individuals;

(b) “designated website” means Ofcom’s website address (at www.ofcom.org.uk or www.jfgm.co.uk) or at such other website address as may be notified by OFCOM to persons who, in their opinion, are likely to be affected by any change of address by publishing such a notice on OFCOM’s website, www.ofcom.org.uk, of OFCOM’s agents managing and licensing in the classes of licence set out under the heading of Programme Making and Special Events in Schedule 2;

(c) “multi use type (1)” in relation to a channel specified in such a licence refers to a maximum of 60 periods with each such period not exceeding 48 hours;

(d) “multi use type (2)” in relation to a channel specified in such a licence refers to a maximum of 480 periods with each such period not exceeding 48 hours;

(e) “occasional use” in relation to a channel specified in such a licence refers to a period not exceeding 48 hours;

(f) “premium case” means a case where at the applicant’s request a licence is granted or varied outside office hours; and for the purposes of this definition “office hours” means 09.00 to 17.00 hours from Monday to Friday other than on a day which is a bank holiday in England and Wales;

(g) “primary” in relation to a channel specified in such a licence refers to use at any time;

(h) “programme making” includes the making of a programme for broadcast, the making of a film presentation, advertisement or audio or video tape, and the staging or performance of an entertainment, sporting or other public event;

(i) “programme sound link” in relation to a channel specified in such a licence refers to a channel used to transmit the material produced in programme making from a fixed transmission station to a fixed receiving station;

(j) “restricted service programme sound link” in relation to a channel specified in such a licence refers to a channel used to transmit the material produced in programme making from a fixed transmission station to a fixed receiving station where the transmission is for a period not exceeding thirty consecutive days;
(k) “secondary” in relation to a channel specified in such a licence refers to use when the channel or band is not being used by another licensee under a licence which authorises such use as a primary channel;

(l) “shared” in relation to a channel specified in such a licence refers to use at the same time as such a channel may be used by a licensee under another licence; and

(m) “variation” in relation to such a licence refers to the addition of a channel to the channel specified in such licence;

and for the purpose of determining “population coverage” as referred to above, reference shall be made as appropriate to—

(ii) the estimated mid-year resident population for Scotland for 2000 as shown in the “Mid-Year Population Estimates, Scotland” published in June 2001; and

(6) In relation to a Satellite (Earth Station Network) licence “network” means a one-way or two-way service from any number of earth station terminals to a single geo-stationary orbit satellite transponder transmitting in the earth to space direction.

(7) In relation to an Aeronautical Station (Aerodrome Surface and Operational Control) licence, an Aeronautical Station (Aeronautical Broadcast) licence, an Aeronautical Station (Aircraft Communications Addressing and Reporting System) licence, an Aeronautical Station (Air/Ground, Aerodrome Flight Information Service and Tower) licence, an Aeronautical Station (Approach) licence, an Aeronautical Station (Area Control) licence, an Aeronautical Station (Offshore) licence and an Aeronautical Station (Very High Frequency Data Link) licence—

(a) “area service” means a two-way wireless telegraphy service between a ground station and an aircraft which is authorised under a licence within a designated operational coverage in which the horizontal plane is polygonal in shape;

(b) “aeronautical broadcast service” means a one-way wireless telegraphy service from a ground station which is authorised under a licence within a designated operational coverage in which the horizontal plane is circular in shape;

(c) “circular service” means a two-way wireless telegraphy service from a ground station and an aircraft which is authorised under a licence within a designated operational coverage in which the horizontal plane is circular in shape;

(d) “designated operational coverage” means a three dimensional portion of airspace within which the provision of a wireless telegraphy service is authorised; and

(e) “excluded channels” means channels 121.5 MHz, 121.6 MHz and 123.1 MHz.]
3 Revocation

The Regulations set out in Schedule 1 are hereby revoked.

4 Licence charges and time of payment

(1) Subject to paragraphs (2) to (11) and to regulations 5, and 6 and 7, there shall be paid to OFCOM by the licensee—

(a) on the issue of the licence and on the variation of the licence where such variation is prescribed in Schedule 2; and

(b) on the last day of the period of twelve, twenty-four, thirty-six or (as the case may be) sixty months prescribed in Schedule 2, if any, in respect of the class of licence in question (the \textit{prescribed payment interval}) and on the last day of each subsequent prescribed payment interval thereafter (the first prescribed payment interval having begun on the day of the issue of the licence) for which the licence continues in force,

in relation to a licence of a class listed in Schedule 2—

(c) the fixed sum, if any, specified in; and

(d) the variable sum, if any, determined in accordance with the provisions of,

that Schedule.

(2) Paragraph (4) shall apply to a licence where—

(a) the licence is of any class other than:

(i) those listed under the heading \textit{Programme Making and Special Events} in Schedule 2;

(ii) the Self Co-ordinated Links licence class (which is listed under the heading \textit{Fixed Links} in Schedule 2); and

(iii) the Non-Operational Temporary Use Demonstration and Trial licence class (which is listed under the heading \textit{Science and Technology} in Schedule 2); and

(b) the sum otherwise payable for such licence is £75 or more per annum.

(3) Paragraph (4) shall apply also to—

(a) a licence within the Point to Point Fixed Links licence class (which is listed under the heading \textit{Fixed Links} in Schedule 2) where the sum otherwise payable for such licence is less than £75 per annum; and
(b) a licence within the Aircraft licence class (which is listed under the heading “Aeronautical” in Schedule 2) where the sum otherwise payable for such licence is £75 or more for a prescribed payment interval.

(4) Where a licence to which this paragraph applies is issued for a period of less than the prescribed payment interval the sum payable shall, subject to paragraph (5), be such sum as represents a proportion of the prescribed sum corresponding to one month of the prescribed payment interval multiplied by the number of complete and part-complete months to the expiry of the licence.

(5) The sum payable in accordance with paragraph (4) shall—

(a) where such sum represents a fraction of a whole pound sterling be rounded up to the nearest pound sterling;

(b) where the licence is of the Shared Access (Low Power) or Shared Access (Medium Power) licence class (listed under the heading “Spectrum Access” in Schedule 2), be subject to a minimum of £32; and

(c) otherwise be subject to a minimum of £20.

(6) Paragraph (8) shall apply to a licensee where—

(a) a prescribed sum is payable by that licensee in respect of a licence under paragraph (1) or regulation 7(1);

(b) the licence is of one of the following classes—
   (i) the classes listed under the heading “Broadcasting” in Schedule 2;
   (ii) the classes listed under the heading “Business Radio” in Schedule 2;
   (iii) the classes listed under the heading “Fixed Links” in Schedule 2;
   (iv) the classes listed under the heading “Public Wireless Networks” in Schedule 2;
   (v) the classes listed under the heading “Satellite Services” in Schedule 2;
   (vi) the classes Shared Access (Low Power) and Shared Access (Medium Power) listed under the heading “Spectrum Access” in Schedule 2; or
   (vii) the class “Spectrum Access 28GHz” under regulation 7(1);

(c) the licence is granted for a period of a year or longer; and

(d) the prescribed sum due for payment by the licensee is in excess of £100,000.

(7) Paragraph (8) shall also apply to a licensee where—

(a) prescribed sums are payable by that licensee under paragraph (1) or regulation 7(1) in respect of more than one licence where all of those licences are of the same class and that class is one of the classes listed in paragraph (6)(b);
(b) each of those prescribed sums is due for payment by the licensee at the same prescribed time in accordance with paragraph (1) or regulation 7(1);

(c) each of the prescribed sums is in respect of licences granted for a period of a year or longer; and

(d) the total of the prescribed sums due for payment by the licensee is in excess of £100,000.

(8) If OFCOM receive notice from a licensee to which this paragraph applies of the licensee's intention to make payment in ten equal instalments of a sum equal to the prescribed sum referred to in paragraph (6) or equal to the total of the prescribed sums referred to in paragraph (7)(d), the licensee—

(a) shall not be required to make payment at the prescribed time other than in accordance with this paragraph; and

(b) shall make payment of the sum in ten equal instalment payments with the first instalment to be paid to OFCOM on the day which shall be the same day as the prescribed time when the prescribed sum or the prescribed sums were to be paid to OFCOM and each subsequent instalment to be paid on the same day in each of the nine consecutive months thereafter (or in a month in which there is no such day, on the last day of the month).

(9) Where at any time the licensee fails to make payment in accordance with paragraph (8), the total of the outstanding instalment payments shall become immediately due for payment.

(10) No sums shall be payable to OFCOM in respect of the issue of a licence in order to effect a transfer of rights and obligations under a licence to another person under regulation 9(3) of the 2012 2004 Regulations.

(11) For any licence issued in order to effect a transfer under the 2012 2004 Regulations, the prescribed payment interval shall be treated so as to commence and expire at the times when the corresponding prescribed payment interval would have commenced and expired under the licence from which the rights and obligations were transferred had the transfer not been made.

5 Concessionary licence charges

(1) This regulation applies where a relevant licence is granted to an applicant, or held by a licensee, which—

(a) is a charity; and

(b) has as its object the safety of human life in an emergency.

(2) The sum to be paid by a qualifying charity to OFCOM on the issue of a relevant licence, and on the last day of each of the prescribed payment intervals (if any), shall be one half of the prescribed sum. Where the sum so payable to OFCOM represents a fraction of a whole pound sterling then the sum payable by the qualifying charity shall be rounded up to the nearest whole pound sterling.

(3) In this regulation—
“charity” means a person who—

(a) being subject to the laws of England and Wales, or Scotland, or Northern Ireland, is a charity within the meaning of paragraph 1(1) of Schedule 6 to the Finance Act 2010;

(b) being subject to the laws of the Isle of Man, is registered as a charity under the Charities Registration and Regulation Act 2019 Charities Registration Act 1989;

(c) being subject to the laws of Guernsey, is a member for the time being of the Association of Guernsey Charities; or

(d) being subject to the laws of Jersey, is registered as a charity under the Charities (Jersey) Law 2014 a member for the time being of the Association of Jersey Charities;

“qualifying charity” is a body falling within paragraph (1); and

“relevant licence” means a licence of one of the following classes—

(a) all of the classes listed under the heading “Aeronautical” in Schedule 2;

(b) all of the classes listed under the heading “Business Radio” in Schedule 2; and

(c) all of the classes listed under the heading “Maritime” in Schedule 2 apart from Ship Radio and Ship Portable Radio.

6 Other licence charges

Where a sum is not prescribed by regulations made under section 12 of the Act whether on the issue of a licence or subsequently, there shall be paid to OFCOM such sum as OFCOM may in the particular case determine.

7 Licence charges payable for the 28 GHz frequency band

(1) On 5th January 2021 2016 and on each anniversary of that date, each holder of a licence of the Spectrum Access 28 GHz licence class granted under the procedure set out in a notice made under the 2000 Regulations which authorises use of frequencies within the frequency bands 28.0525–28.4445 GHz and 29.0605–29.4525 GHz shall pay to OFCOM the sums specified in paragraph (2).

(2) The sum which must be paid in accordance with paragraph (1) comprises—

(a) £703.63 for each 2 x 1 MHz channel which is authorised by the licence in Region A as described in Part 1 of the Schedule to the 2000 Regulations;
(b) £520.17 for each 2 x 1 MHz channel which is authorised by the licence in Region B as described in Part 1 of the Schedule to the 2000 Regulations;

(c) £380.20 for each 2 x 1 MHz channel which is authorised by the licence in Region C as described in Part 1 of the Schedule to the 2000 Regulations;

(d) £341.22 for each 2 x 1 MHz channel which is authorised by the licence in Region I as described in Part 1 of the Schedule to the 2000 Regulations;

(e) £263.97 for each 2 x 1 MHz channel which is authorised by the licence in Region J as described in Part 1 of the Schedule to the 2000 Regulations;

(f) £372.72 for each 2 x 1 MHz channel which is authorised by the licence in Region L as described in Part 1 of the Schedule to the 2000 Regulations; and

(g) £64.40 for each 2 x 1 MHz channel which is authorised by the licence in Region N as described in Part 1 of the Schedule to the 2000 Regulations.

£20 for each licence that is not applied for electronically; no charge for persons aged 75 years or over.

Broadcasting

Restricted Radio Services Transmission (Class A—Freely Radiating)

(a) £15 per day for each medium wave broadcasting band frequency.
(b) £25 per day where the erp does not exceed 1 Watt for each VHF broadcasting band frequency.
(c) £40 per day where the erp exceeds 1 Watt for each VHF broadcasting band frequency.

Restricted Radio Services Transmission (Class B—Radiating Cable)

£100

12 months

Restricted Radio Services Transmission (Class C—Freely Radiating Very Low Power)

£100

12 months

Transmission of National and Local Radio Broadcasting Services

(a) For any number of transmitters in the medium wave broadcasting band—
(i) £226, where coverage is of fewer than 100,000 people;
(ii) £339 per complete 100,000 people covered, any final group of fewer than 100,000 people being disregarded, where coverage is of 100,000 people or more.
(b) For any number of transmitters in the VHF broadcasting band—
(i) £339, where coverage is of fewer than 100,000 people;
(ii) £509 per complete 100,000 people covered, any final group of fewer than 100,000 people being disregarded, where coverage is of 100,000 people or more.

National DTT Multiplexes £188,000

Local TV DTT Multiplex £23,900

Northern Ireland DTT Mul- £3360
tiplex
Community Radio £250
Self-help TV £75 for each digital Self-help relay

Business Radio
Business Radio (GSM-R Railway use) £158,400 for each 2 x 200 kHz channel.
Business Radio (Simple UK) £75
Business Radio (Suppliers Light) £75
Business Radio (Simple Site) £75
Business Radio (Area Defined) £75

For each authorisation under a licence of use of a 6.25 kHz channel for one of the areas set out in Column 1 of Schedule 6 in a high usage band, medium usage band or low usage band, the appropriate sum payable for that area and for that band which is indicated in Column 2, 3, 4, or 5 of Schedule 6, provided that where the total sum payable in respect of a licence is less than £75 then the sum payable is £75.

Business Radio (Technically Assigned)
(a) Subject to paragraph (b), for each authorisation under a licence of use of a 6.25 kHz channel in a high usage band, medium usage band or low usage band the appropriate sum payable is that determined in accordance with Parts 1 to 3 of Schedule 7, provided that where the total sum payable in respect of a licence is less than £75 then the sum payable is £75.
(b) For each authorisation under a licence of use of a 6.25 kHz channel for only 250 milliseconds in each two seconds or for only 500 milliseconds in each four seconds for each base station in a high usage band, medium...
usage band or low usage band the appropriate sum payable is one eighth of the sum determined in accordance with Parts 1 to 3 of Schedule 7, provided that where the total sum payable in respect of a licence is less than £75 then the sum payable is £75.

(a) £15,578 for each channel for the area of Great Britain excluding the core London area and the outer London area. 12 months

(b) £3,647 for each channel in the outer London area. 12 months

(c) £107 for each channel in the core London area. 12 months

Public Safety Radio (Jersey) £610 12 months

Public Safety Radio (Guernsey) £378 12 months

Public Safety Radio (Isle of Man) £1372 12 months

Fixed Links

Point to Point Security CCTV Services

(a) £720 for each hub with a bandwidth less than or equal to 56 MHz. 12 months

(b) £885 for each hub with a bandwidth greater than 56 MHz but less than, or equal to, 140 MHz. 12 months

(c) £1,030 for each hub with a bandwidth greater than 140 MHz but less than, or equal to, 250 MHz. 12 months

(d) £1,155 for each hub with a bandwidth greater than 250 MHz but less than, or equal to, 308 MHz. 12 months

(e) Where a hub listed in paragraphs (a) to (d) is added after the issue of the licence, such sum as represents one-twelfth of the prescribed sum on the issue of the licence, multiplied by the number of complete calendar months beginning with the
Point to Point Fixed Links
(exclusive of 71.125—73.125GHz and 81.125—83.125GHz)

(a) Subject to paragraphs (b) and (d), for each co-ordinated two-way fixed link, the appropriate sum calculated in accordance with the formula set out in Part 1 of Schedule 3.

(b) For each co-ordinated two-way fixed link added after the issue of the licence and where the additional links are operating co-channel and cross-polar, 50 per cent of the prescribed sum specified in paragraph (a).

(c) For each one-way fixed link, 75 per cent of the prescribed sum specified in paragraph (a).

(d) Where a temporary co-ordinated two-way or one-way fixed link (other than an additional link referred to in paragraph (b)) is added after the issue of the licence, such sum as represents one-twelfth of the prescribed sum on the issue of the licence, multiplied by the number of complete calendar months beginning with the date of the addition of the link to the next anniversary of the issue of the licence.

Point to Point Fixed Links
(71.125-73.125GHz and 81.125-83.125GHz)

(a) £100 for each two-way channel pair with a bandwidth of less than 250 MHz.

(b) £225 for each 250 MHz of bandwidth within a two-way channel pair, where the two-way channel pair has a bandwidth of 250 MHz or more.

Self Co-ordinated Links

£50 for each 65 GHz, 71–76 GHz and 81–86 GHz fixed link.
### Scanning Telemetry

- **(a)** £410 for each 2 x 12.5 kHz channel used at a base station hub which is not subject to national channel arrangements.
- **(b)** £7,920 for each 2 x 12.5 kHz national channel.
- **(c)** For each 1 x 12.5 kHz channel, 50 per cent of the prescribed sum specified in paragraphs (a) or (b) that would apply to a 2 x 12.5 kHz channel.

Programme Making and Special Events
Programme Making and Special Events Fixed Site

(a) For the issue of a licence—
   (i) £28 for each channel per site in respect of a single channel talk-back or a single channel radio microphone;
   (ii) £168 for each channel per site in respect of a multi-channel talk-back, a multi-channel radio microphone or a wideband channel; plus—
   (iii) in a premium case, £55.
(b) For the variation of a licence—
   (i) subject to paragraph (b)(ii), where a channel listed in paragraph (a)(i) or (ii) is added, such sum as represents one-twelfth of the sum payable for the issue of a licence for the type of channel to which the additional channel belongs, multiplied by the number of complete and part-complete calendar months beginning with the day of the addition of the channel to the next anniversary of the issue of the licence;
   (ii) where the aggregate sum payable for a variation of a licence in this paragraph in any case other than a premium case would otherwise be less than £28, a charge of £28 only; plus—
   (iii) in a premium case, £55.

(a) Subject to paragraph (a)(xlvi), for the issue of a licence—
   (i) £2.75 for each channel of 12.5 kHz in the band 26–65 MHz for occasional use;
   (ii) £8.50 for each channel of 12.5 kHz in the band 65–470 MHz for occasional use;
   (iii) £2.75 for each channel of 12.5 kHz in the band 470–1,000 MHz for occasional use;
   (iv) £17 for each channel (not being a telemetry or telecommand channel) of 0.5 MHz in the band 1–2 GHz for occasional use;
   (v) £17 for each telemetry or telecommand channel of 5 MHz in the band 1–2 GHz for occasional use;
   (vi) £28 for each channel of 5 MHz in the band 2–5 MHz.
GHz for occasional use;
(vii) £17 for each channel of 5 MHz in the band 5–8 GHz for occasional use;
(viii) £8.50 for each channel of 5 MHz above 8 GHz for occasional use;
(ix) £153 for each channel of 12.5 kHz in the band 26–65 MHz for multi use type (1) channels;
(x) £472 for each channel of 12.5 kHz in the band 65–470 MHz for multi use type (1) channels;
(xi) £153 for each channel of 12.5 kHz in the band 470–1,000 MHz for multi use type (1) channels;
(xii) £944 for each channel of 0.5 MHz in the band 1–2 GHz for multi use type (1) channels;
(xiii) £1,554 for each channel of 5 MHz in the band 2–5 GHz for multi use type (1) channels;
(xiv) £944 for each channel of 5 MHz in the band 5–8 GHz for multi use type (1) channels;
(xv) £472 for each channel of 5 MHz above 8 GHz for multi use type (1) channels;
(xvi) £990 for each channel of 12.5 kHz in the band 26–65 MHz for multi use type (2) channels;
(xvii) £3,060 for each channel of 12.5 kHz in the band 65–470 MHz for multi use type (2) channels;
(xviii) £990 for each channel of 12.5 kHz in the band 470–1,000 MHz for multi use type (2) channels;
(xix) £6,120 for each channel of 0.5 MHz in the band 1–2 GHz for multi use type (2) channels;
(xx) £10,080 for each channel of 5 MHz in the
band 2–5 GHz for multi
use type (2) channels;
(xxi) £6,120 for each
channel of 5 MHz in the
band 5–8 GHz for multi
use type (2) channels;
(xxii) £3,060 for each
channel of 5 MHz above 8
GHz for multi use type (2)
channels;
(xxiii) £22 for each prima-
ry channel of 12.5 kHz in
the band 26–65 MHz for
each area;
(xxiv) £113 for each pri-
mary channel of 12.5 kHz
in the band 65–470 MHz
for each area;
(xxv) £22 for each primary
channel of 12.5 kHz in the
band 470—1,000 MHz for
each area;
(xxvi) £130 for each pri-
mary channel of 0.5 MHz
in the band 1–2 GHz for
each area;
(xxvii) £225 for each pri-
mary channel of 5 MHz in
the band 2–5 GHz for
each area;
(xxviii) £130 for each pri-
mary channel of 5 MHz in
the band 5–8 GHz for
each area;
(xxix) £65 for each prima-
ry channel of 5 MHz
above 8 GHz for each
area;
(xxx) £11 for each sec-
ondary channel of 12.5
kHz in the band 26–65
MHz for each area;
(xxxi) £57 for each sec-
ondary channel of 12.5
kHz in the band 65–470
MHz for each area;
(xxxii) £11 for each sec-
ondary channel of 12.5
kHz in the band
470—1,000 MHz for each
area;
(xxxiii) £65 for each
channel of 0.5 MHz in the
band 1–2 GHz for each
area;
(xxxiv) £113 for each secondary channel of 5 MHz in the band 2–5 GHz for each area;
(xxxv) £65 for each secondary channel of 5 MHz in the band 5–8 GHz for each area;
(xxxvi) £33 for each secondary channel of 5 MHz above 8 GHz for each area;
(xxxvii) £52 for each channel of 12.5 kHz in the band 26–65 MHz for programme sound link use;
(xxxviii) £246 for each channel of 0.5 MHz in the band 1517–1525 MHz for programme sound link use;
(xxxix) £14 for each channel of 12.5 kHz in the band 26–65 MHz for restricted service programme sound link use;
(xli) £43 for each channel of 12.5 kHz in the band 65–470 MHz for restricted service programme sound link use;
(xlii) £14 for each channel of 12.5 kHz in the band 470–1,000 MHz for restricted service programme sound link use;
(xliii) £12 for each 10 MHz channel in the band 2–5 GHz for each licence for digital wireless camera use;
(xliv) £666 for each 10 MHz channel in the band 2–5 GHz for multi use type (1) channels for each licence for digital wireless camera use;
(xlv) £4,320 for each 10 MHz channel in the band 2–5 GHz for multi use
type (2) channels for each licence for digital wireless camera use;
(xlvi) where the aggregate sum payable on the issue of a licence in this paragraph in any case other than a premium case would otherwise be less than £28, a charge of £28 only; plus—
(xlvii) in a premium case, £55.
(b) For the variation of a licence—
(i) subject to paragraph (b)(ii), where a channel listed in paragraph (a)(xxiii) to (xxxviii) is added, such sum as represents one-twelfth of the sum payable for the issue of a licence for the type of channel to which the additional channel belongs, multiplied by the number of complete and part-complete calendar months beginning with the day of the addition of the channel to the next anniversary of the issue of the licence;
(ii) where the aggregate sum payable for a variation of a licence in this paragraph in any case other than a premium case would otherwise be less than £28, a charge of £28 only; plus—
(iii) in a premium case, £55.

Programme Making and Special Events Audio Distribution Services

(a) £14 for each channel of 12.5 kHz in the band 26–65 MHz.
(b) £43 for each channel of 12.5 kHz in the band 65–470 MHz.
(c) £14 for each channel of 12.5 kHz in the band 470–1,000 MHz.
(d) £120 for each channel of 0.5 MHz in the band 1517–1525 MHz.
Programme Making and Special Events Low Power

(a) Subject to paragraph (a)(viii), for the issue of a licence—
(i) £8.50 for each occasional use channel for a single channel radio microphone;
(ii) £472 for each multi use type (1) channel for a single channel radio microphone;
(iii) £3,060 for each multi use type (2) channel for a single channel radio microphone;
(iv) £70 for each primary single radio microphone for each area;
(v) £27 for each secondary single radio microphone for each area;
(vi) £51 for each occasional use of a multi-channel radio microphone or a single wideband channel;
(vii) £2,831 for each multi use type (1) channel of a multi-channel radio microphone or a single wideband channel;
(viii) where the aggregate sum payable on the issue of a licence in this paragraph in any case other than a premium case would otherwise be less than £28, a charge of £28 only; plus—
(ix) in a premium case, £55.

(b) For the variation of a licence—
(i) subject to paragraph (b)(ii), where a channel listed in paragraph (a)(iv) to (vii) is added, such sum as represents one-twelfth of the sum payable for the issue of a licence for the type of channel to which the additional channel belongs, multiplied by the number of complete and part-complete calendar
months beginning with the day of the addition of the channel to the next anniversary of the issue of the licence;
(ii) where the aggregate sum payable for a variation of a licence in this paragraph in any case other than a premium case would otherwise be less than £28, a charge of £28 only; plus—
(iii) in a premium case, £55.

Network 2 GHz

(a) For each base station per 2 x 1 MHz in the bands 1980—2010 MHz and 2170—2200 MHz, the appropriate sum payable is: £64,000 in a high population area; £8,025 in a medium population area; and £825 in a low population area.

(b) For each base station per 2 x 15 MHz in the bands 1980—2010 MHz and 2170—2200 MHz, the appropriate sum payable is: £960,000 in a high population area; £120,375 in a medium population area; and £12,375 in a low population area.

For each terminal requiring technical coordination by Ofcom £200.

Satellite (Earth Station)

Network £200

For each terminal requiring technical coordination by Ofcom £200.

Satellite (Earth Station—Non-Fixed Satellite Service)

£500

For each site (the area contained within a circle of a radius of 500 metres centred on a point defined by the licensee), the appropriate sum calculated in accordance with the formula set out in Part 1 of Schedule 4.

Satellite (Earth Station—Non-Geostationary)

£500

For each earth station operating in one of the bands specified in columns 2, 3 or 4 of the table in Part 3 to Schedule 4, the appropriate sum payable in accordance with that Part of that Schedule as determined by the power and bandwidth of the earth station.

Satellite (Permanent Earth Station)

£554,400 for each 2 x 1 MHz national channel in the bands 1980—2010 MHz and 2170—2200 MHz.

Satellite (Transportable Earth Station)

£500

12 months

Satellite (Complementary Ground Components of a Mobile Satellite System)

Part 1 Formula

1

In this Schedule—

(a) “the appropriate sum” means the amount in pounds sterling, which is payable for a Point to Point Fixed Links licence, calculated in accordance with the formula set out in paragraph 2; and

(b) “Availability” means the minimum percentage of time that the fixed link is capable of functioning as set out in the licensee's licence.

2

The formula is

\[ AS = Sp \times Bwf \times Bf \times Plf \times Avf \]

where—

“AS” means the appropriate sum;

“Avf” means the Availability Factor, being the number in Column 2 of the table set out in Part 5 as determined by the Availability (in per cent) as set out in Column 1 of that table;

“Bf” means the Band Factor, being the number in Column 2 of the table set out in Part 2 as determined by the range of frequency band (in GHz), if any, of a fixed link set out in Column 1 of that table in which the licensee's band falls as declared by the licensee on application for a licence;

“Bwf” means the Bandwidth Factor, subject to paragraph 3, being the number corresponding to the bandwidth (in MHz) of a co-ordinated two-way fixed link (or a part thereof) as declared by the licensee on application for a licence;

“MPL” means the Minimum Path Length, being the number corresponding to the applicable (depending on the amount of data that can be transmitted over the bandwidth (“the data rate”) or over the channel width for analogue systems) length of the path (in kilometres) specified in Columns 2 and 3 of tables 1 or 2 set out in Part 4 as determined by the range of frequency band (in GHz), if any, of a fixed link set out in Column 1 of those respective tables in which the licensee's band falls as declared by the licensee on application for a licence;

“PL” means the Path Length, being the number corresponding to the distance (in kilometres) between two fixed points of the link as declared by the licensee on application for a licence;

“Plf” means the Path Length Factor, being the number in Column 2 of the table set out in Part 3 as determined by the relationship between the PL and the MPL as set out in Column 1 of that table except for the Channel Islands and the Isle of Man, where Plf is 1; and
“Sp” means the Spectrum Price, being a fixed sum of £88 per 2 x 1 MHz bandwidth for each co-ordinated two-way fixed link.

3 Where the number of the bandwidth (in MHz) of a co-ordinated two-way fixed link (or a part thereof) as set out in the licensee’s licence is less than 1.0, the number of the Bandwidth Factor shall be 1.0.

Part 1 Formula for Calculating the Appropriate Sum for a Satellite (Permanent Earth Station) Licence

1
In this Part, subject to paragraph 3, “the appropriate sum” means the amount in pounds sterling, which is payable for a Satellite (Permanent Earth Station) licence, calculated in accordance with the formula set out in paragraph 2.

2
The formula is—

\[ AS = \Sigma_{bands} [28 \times BF_{band} \times \sqrt[\Sigma_{paths_{band}} (P_{path} \times BW_{path})}] \]

where—

“AS” means the appropriate sum;

“bands” mean the numbers listed in Column 1 of the table set out in Part 2, corresponding to the range of frequency band listed in Column 2 of that table which are authorised by the licence;

“BF_{band}” means the band factor applying to each band, being the number in Column 3 of the table set out in Part 2 corresponding to the band listed in Column 1 of the same table;

“paths_{band}” means the set of those transmission paths authorised by the licence for which the authorised transmission frequency lies within the frequency range of each band as set out in Column 2 of the table set out in Part 2;

“P_{path}” means the authorised peak transmit power (in Watts) at the flange of the antenna of the earth station for each transmission path;

“BW_{path}” means the authorised transmit bandwidth (in MHz) for each transmission path; and

“transmission path” means a combination of a satellite earth station transmitter, a satellite receiver, a transmission frequency, and polarisation for which transmissions are authorised by the licence.

3
Where the amount in pounds sterling calculated in accordance with the formula set out in paragraph 2 is less than £500, the appropriate sum shall be £500.

### Part 3 Fees Payable for Satellite (Transportable Earth Station) Licences

4  
The appropriate sum is the amount in pounds sterling which is payable for each earth station operating in one of the bands specified in Columns 2, 3 or 4 of the table below as determined by the range of p specified in Column 1 of that table in which the licensee’s network falls.

5  
In this Part—

(a) "OMP" means the number corresponding to the number of the Operational Maximum Power (in Watts) as declared by the licensee on application for the earth station licence;

(b) "p" means the product of OMP multiplied by WBW; and

(c) "WBW" means the number corresponding to the number of the widest bandwidth (in MHz) as declared by the licensee on application for the licence.

<table>
<thead>

Part 1 Formula for Calculating the Appropriate Sum for a Licence for an Area Service

1
For an area service the appropriate sum is the amount in pounds sterling calculated in accordance with the formula set out in paragraph 2.

2
The formula is—
\[ S = \frac{RR}{SA} \times \pi \times [(1.23 \times \sqrt{h}) + r]^2 \]
where—

“S” means the sum;

“RR” means a reference rate of £3,300, being the fee payable for an authorisation under a licence for use of a 8.33 kHz channel over a surface area of 71,000 square nautical miles;

“SA” means 71,000, being the number corresponding to the surface area (in square nautical miles) of the United Kingdom;

“\(\pi\)” means 3.142;

“h” means the number corresponding to the height (in feet) of the designated operational coverage specified in the licence granted to the licensee; and

“r” means the number corresponding to the radius (in nautical miles) of a circle of equivalent area to the designated operational coverage specified in the licence.

Part 2 Formula for Calculating the Appropriate Sum for a Licence for an Aeronautical Broadcast Service

3
For an aeronautical broadcast service the appropriate sum is the amount in pounds sterling which is the lesser of—

(a) the sum calculated in accordance with the formula set out in paragraph 4; and

(b) the sum calculated in accordance with the formula set out in paragraph 5.
The formula referred to in paragraph 3(a) is—
\[ S = \frac{RR}{SA} \times \pi \times [(1.23 \times \sqrt{h}) + r]^2 \]
where—

“S” means the sum;

“RR” means a reference rate of £3,300, being the fee payable for an authorisation under a licence for use of an 8.33 kHz channel over a surface area of 71,000 square nautical miles;

“SA” means 71,000, being the number corresponding to the surface area (in square nautical miles) of the United Kingdom;

“π” means 3.142;

“h” means the number corresponding to the height (in feet) of the designated operational coverage specified in the licence granted to the licensee; and

“r” means the number corresponding to the radius (in nautical miles) of the designated operational coverage specified in the licence.

The formula referred to in paragraph 3(b) is—
\[ S = \frac{RR}{SA} \times \pi \times (3 \times r)^2 \]
where—

“S” means the sum;

“RR” means a reference rate of £3,300, being the fee payable for an authorisation under a licence for use of a 8.33 kHz channel over a surface area of 71,000 square nautical miles;

“SA” means 71,000, being the number corresponding to the surface area (in square nautical miles) of the United Kingdom;

“π” means 3.142; and

“r” means the number corresponding to the radius (in nautical miles) of the designated operational coverage specified in the licence.
Part 3 Formula for Calculating the Appropriate Sum for a Licence for a Circular Service

6
(1) For a circular service the appropriate sum is the amount in pounds sterling which is the greater of the sums specified in paragraphs 6(2) and 6(3).
(2) The sum specified in this paragraph is the lesser of—
   (a) the sum calculated in accordance with the formula set out in paragraph 4; and
   (b) the sum calculated in accordance with the formula set out in paragraph 7.
(3) The sum specified in this paragraph is the sum in pounds sterling equal to a quarter of the sum calculated in accordance with the formula set out in paragraph 4.

7
The formula referred to in paragraph 6(2)(b) is—
\[ S = \frac{RR}{SA} \times \pi \times (3.5 \times r)^2 \]
where—

“S” means the sum;

“RR” means a reference rate of £3,300, being the fee payable for an authorisation under a licence for use of a 8.33 kHz channel over a surface area of 71,000 square nautical miles;

“SA” means 71,000, being the number corresponding to the surface area (in square nautical miles) of the United Kingdom;

“\(\pi\)” means 3.142; and

“r” means the number corresponding to the radius (in nautical miles) of the designated operational coverage specified in the licence.
