

## About this data: Fixed coverage UK and Nations

To create our [Connected Nations Summer 2023 update](#), Ofcom collected and analysed data from 59 fixed network providers. This file provides information on fixed broadband coverage for the UK and Nations.

The coverage availability was collected as a snapshot in May 2023. [Our methodology](#) provides details of our approach to collecting and analysing coverage data.

This file contains all data points for May 2023 that are provided on pages 8 and 9 of the [Connected Nations Summer 2023 Interactive report](#).

If you have any questions or feedback on the data, please contact us at [open.data@ofcom.org.uk](mailto:open.data@ofcom.org.uk).

We are providing this data on an open basis via the [Open Government Licence](#), which gives users various freedoms about how they choose to use the data, subject to conditions.

The files are provided as a Comma Separated Values file, with double quote (") text delimiters where applicable.

### Coverage availability

File name: fixed\_coverage\_UK\_and\_Nations\_202305\_r01.csv

Total records in file: 1 header row, 495 data rows

File size on disk: 29 KB
