

SCHEDULE

Direction under section 106(3) of the Communications Act 2003 applying the electronic communications code

Background

1. The Applicant has applied to Ofcom for a direction applying the Code to the Applicant.
2. The date on which Ofcom received a completed application that meets the statutory requirements with respect to the content of an application for a direction applying the Code and the manner in which such an application is to be made was 2 July 2019.
3. By virtue of regulation 3 of the Electronic Communications and Wireless Telegraphy Regulations 2011 (SI 2011 No. 1210), except in cases of expropriation, Ofcom must make its decision within 6 months of receiving the completed application.
4. Prior to giving a decision under section 106(3) of the Act to apply the Code to the Applicant, Ofcom must publish a notification of its proposal to give the direction and consider any representations about that proposal that are made to Ofcom within the period specified in the notification.
5. On 9 August 2019, Ofcom published, in accordance with section 107(6) of the Act, a notification of its proposal to give a direction applying the Code to the Applicant for the reasons set out in the consultation document accompanying that notification. That notification invited representations to Ofcom by no later than 5pm on 9 September 2019.
6. Ofcom received four representations objecting to the proposal. The respondents' main concern was about the potential health and environmental issues arising from weak electromagnetic fields that might be generated by communications equipment deployed by the Applicant (and other persons to whom Ofcom applies the Code). Some other respondents were concerned about the general regime governing how Code powers are applied and exercised; particularly in relation to Code operator's; street works and planning permission exemptions and rights to install electronic communications apparatus on private land.
7. Having considered the objections to the proposal, it was Ofcom's view that the raised issues concern Government policy relating to the rollout of advanced communications networks and the technology they employ. In particular, the Government's assessment of the safety of non-ionising radiation and Government policy concerning the planning regime which facilitates the rollout of those networks. Ofcom has no duties in these areas, therefore we do not think it would be appropriate for Ofcom to include consideration of such potential issues as part of its assessment of the application.
8. For the reasons set out in the explanatory statement accompanying Ofcom's consultation, Ofcom has had regard, in particular, to each of the matters set out in section 107(4) of the Act. Furthermore, Ofcom has considered and acted in accordance with its general duties in section 3 of the Act and the six Community requirements in section 4 of the Act.

Decision

9. Ofcom hereby directs, in accordance with section 106 of the Act, as follows—

- (a) the Code shall apply to the Applicant for the purposes of the provision by the Applicant of
 - I. an electronic communications network; and
 - II. a system of infrastructure which the Applicant is making available, or proposing to make available, for use by providers of electronic communications networks for the purposes of the provision by them of their networks; and
- (b) that application of the Code shall have effect throughout the United Kingdom.

10. This Direction shall take effect on the day it is published.

Interpretation

11. In this Direction—

- (a) “**Act**” means the Communications Act 2003;
- (b) “**Applicant**” means, Swish Fibre Limited, whose registered company number is 11486930.
- (c) “**Code**” means the electronic communications code set out in Schedule 3A to the Communications Act 2003;
- (d) “**Ofcom**” means the Office of Communications.

12. For the purpose of interpreting this Direction—

- (a) headings and titles shall be disregarded;
- (b) the Interpretation Act 1978 shall apply as if this Notification were an Act of Parliament.
