Dear Sara Winter

re: 2009 Ofcom Access services review

Audio description is a brilliant service that has completely revolutionised my enjoyment of television. It's a narrative that describes the action, body language, facial expressions or scenery - all things that I might otherwise miss.

I understand the Ofcom Access Services review includes three options for the future of audio description. I am requesting that Ofcom choose option two and increase audio description to 20% across all channels.

Audio description enables me to understand what is happening in the programme and I don't feel left out. I can enjoy the programme in the company of my husband and friends.

Please take onboard my request for an increase of audio description to 20 per cent.

Yours sincerely
