

Made outside of London programme titles register 2011

Publication date:

22 August 2012

Background

- 18.1 Section 286 of the [Communications Act 2003](#) requires that Channels 3 and 5 each produce a suitable proportion, range and value of programmes outside of the M25. Channel 4 faces a similar obligation under Section 288.
- 18.2 This document sets out the titles of programmes that the BBC, ITV, Channel 4 and Channel 5 certified were Made outside of London (MOL) productions during 2011.
- 18.3 Further information from Ofcom on how it monitors regional production can be found [here](#).
- 18.4 The three criteria under which a programme can qualify as MOL are:
 - 18.4.1 The **production company must have a substantive business** and production based in the UK outside the M25. A base will be taken to be substantive if it is the usual place of employment of executives managing the regional business, of senior personnel involved in the production in question, and of senior personnel involved in seeking programme commissions – '**location**' in the data set out in this register;
 - 18.4.2 At least 70% of the **production budget** (excluding the cost of on-screen talent, archive material, sports rights, competition prize-money and copyright costs) must be spent in the UK outside the M25 – '**spend**' in the data set out in this register; and
 - 18.4.3 At least 50% of the **production talent** (i.e. not on-screen talent) by cost must have their usual place of employment in the UK outside the M25. Freelancers without a usual place of employment outside the M25 will nonetheless count for this purpose if they live outside the M25 – '**talent**' in the data set out in this register.
- 18.5 To qualify a series must meet at least two of these three criteria.
- 18.6 There are six main territories to which a MOL programme can be allocated:
 - 18.6.1 Scotland; or
 - 18.6.2 Wales; or
 - 18.6.3 Northern Ireland; or
 - 18.6.4 South of England (comprising the South-West and South-East England); Midlands/East of England (West Midlands, East Midlands and East of England); North of England (Yorkshire and Humber, North-West and North-East England).
 - 18.6.5 In 2011 a seven territory, Other, was introduced for regional productions from London producers which did not meet both 70% of spend and 50% of talent in any one particular Macro Region. See http://stakeholders.ofcom.org.uk/broadcasting/guidance/programme-guidance/reg_prod/ on Ofcom website for further details.
- 18.7 In 2011, all the PSBs met both their value- and volume-based MOL quotas, as illustrated in Figure 1.

Figure 1: Performance against MOL quotas

Source: Broadcasters

18.8 Note that the productions set out in this register do not include those commissioned by S4C nor those produced by the BBC for S4C or BBC Alba. They also exclude all programmes commissioned by the BBC and ITV that are only available to viewers in one of the UK's nations or English regions (i.e. regional).
