

Chris Dalton

Question 1: Should Heartland Radio Foundation Limited be permitted to make its proposed changes to the Format of Heartland FM (Perth)?

No, HRFL should remain within Perth as I feel it will dramatically change the character of the station as it will be mixed in with another station broadcasting outwith Perth to a totally different demographic audience.

Question 2: Should Wave 102 Limited be permitted to make its proposed changes to the Format of Wave 102?

Wave 102 should remain as is - broadcasting from within Dundee to the people in that area with locally relevant content - why has this suddenly become a viable opportunity after the number of years that Wave 102 has been broadcasting?
