Question 1: Do you agree with our analysis of consumer detriment on the 070 number range?:

Yes

Question 2: Do you agree that the costs outweigh the benefits in relation to closing the 070 number range and migrating users to an alternative range?:

Yes

Question 3: Do you agree that Ofcom should keep the 070 range open and monitor the market in light of enforcement action by PhonepayPlus?:

Yes

Question 4: Do you agree that Ofcom should require OCPs to give greater prominence to the cost of calling 070 numbers in published price lists and promotional material?:

Yes

Question 5: Do you agree that Ofcom should amend its guidance to ensure that PNS providers carry out appropriate due diligence of sub-allocates of personal numbers?:

Only where completely necessary.

Question 6: Do you agree that Ofcom should not bar the presentation of 070 CLI? Please provide evidence to support your response:

Yes. If it is barred for 070 then it should be barred for other services.

Question 7: Should services provided by, for example, Hospedia, Premier Telesolutions and Trader Media be provided on an alternative number range to 070? Please provide any evidence to support your views.:

Yes as Patient Line for example is clearly a premium rate line with a massive charging hike on the cost of the actual call to pay for equipment etc, so that should be a different number range, so as not to be confused with 070.

Question 8: Do you agree that Ofcom should withdraw formally the requirement for pre-call announcements on 070 Personal Numbers?:

Yes. Industry experts have warned against this requirement as have the EU, but Ofcom have ignored this.
