**Question 8: Do the BBC's proposed content management states and their permitted use for different categories of HD content meet the requirements of other HD broadcasters on DTT? . :**

n/a

**Question 9: Are there any issues that you consider Ofcom should take into account in assessing the BBC's proposal, that have not been addressed by this consultation?:**

DRM should not be implemented just to please some content providers. If they want DRM for their shows/movies to be shown in HD, the BBC should just not air it and show content that doesn't require DRM.

If DRM is introduced, the people that are going to illegally distribute the content will find a way around, like every other DRM that's been implemented while it penalises legitimate users.
