Timings and outputs in the tables are indicative and represent the current view of Ofcom at the time of press (5th December 2016). They are, however, subject to change. For the remainder of 2016/17 we will continue to update these tables to reflect any changes we make to projects, outputs, and timings in the light of ongoing market, legislative and regulatory developments.

Projects and programmes are categorised by the Goals and work areas set out in our Annual Plan. In certain cases individual activities may support multiple Goals/ Highlights. For clarity we have listed these once, under the most relevant heading.
