For the attention of Mr E. Richards

Dear Mr Richards,

Re : Valleys Radio, The Wave and Sound sound co-location to Swansea

I understand that the three radio stations above are hoping to co-locate to Swansea, in a location such as the Swansea Gate Business park.

The NSPCC Cymru/Wales has worked closely with these stations over the last ten years and I consider this type of move to be a very positive way forward for the future of the three radio stations. They have a real impact and affect within the South Wales area and I am sure that this development would only serve to strengthen those links with their local communities.

Therefore, I would have no hesitation in supporting the co-location of Valleys Radio, Swansea Sound and The Wave to a new, purpose built art media complex, like the one being proposed at Swansea Gate Business Park. I look forward to continuing the close relationship we have and look forward to working with them in the future.

Yours sincerely,

Julie Richards
S. W. Wales Community Appeals Manager
