Dear Sara Winter

Audio description is a brilliant service that has completely revolutionised my enjoyment of television. Its narrative describes the action, body language, facial expressions and scenery, all things I might otherwise have missed.

I understand the Ofcom Access Services review includes three options for the future of audio description. I am requesting that Ofcom choose Option Two and increase audio description to 20% across all channels.

Please take onboard my request for an increase of audio description to 20%, thank you.

Yours sincerely

Lynette Sutton
