

John Ellerby

Question 1: Should Heartland Radio Foundation Limited be permitted to make its proposed changes to the Format of Heartland FM (Perth)?

No. Perthshire is distinct to Dundee and should retain its own station. Heartland FM, as stated on its website, is primarily staffed by volunteers and receives funding from the Scottish Government and the European Union. Why therefore does it need to make efficiency savings?

Question 2: Should Wave 102 Limited be permitted to make its proposed changes to the Format of Wave 102?

No. Dundee is a distinct city and should retain its own station catering for the over 35 year olds. A locally focused station for one of the major cities in Scotland should not be watered down by sharing its output with Perth.
