

Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :

NO, I am unhappy regarding the loss of privacy that will happen if my mail is sent to my neighbour, I recieve a large number of parcels and it will be less convenient for myself (and my neighbour) to have to continually call to their house for collection, rather than my local delivery office when it is convenient. I am also concerned if regarding possible damage or loss of items while in the care of neighbours. I understand this service may be convenient for saome but it should be optional.

Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:

Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval
